Spec m Q58, Man's signet ring  
Q59, Man's "ANZIO" souvenir ring

RESULTS OF EXAMINATIONS

An examination of the man's signet ring, specimen Q58, revealed the crudely inscribed initials "F K" or "F P" on its face. The examiner believes that it is more probable that the initials are "F K" than "F P". It was not possible to establish the origin of the ring.

The signet ring is made from three pieces of metal. The initialled face of the ring is a flat piece of white metal which is fastened to a larger similarly shaped piece of brass. These two ring components are then soldered to a brass ring band. The white metal top, the larger similarly shaped piece of brass and the brass ring band constitute the three thicknesses of metal in the center of the ring. The precise shape and design of these ring components may be seen by referring to the enclosed photographs. The examiner believes the ring is a very inexpensive one and crudely made. It is entirely possible that this ring may be "home made".

cc-Director of Intelligence, War Department General Staff  
The Pentagon, Washington 25, D C  
(Attention Reading Panel)

The band of the ring on specimen Q58 is very unusual in that it contains the fragmentary inscription of what appears to be "CHAMBRES DE COMMERCE DE FRANCE". There are no other inscriptions on the inside of the band. It appears that the band is made from some product made for the Chamber of Commerce of France and then adapted for use on this particular ring. The ring size of specimen Q58 is approximately  $10\frac{1}{2}$ . It certainly appears that this ring is of foreign origin.

In addition to the regular photographs which we submit to your office in this type of case, a photograph showing a small portion of the inscription on the inside of the band is also being enclosed. All of the photographs in this report are twice the actual size of the objects photographed.

It was not possible to determine the origin of the man's souvenir ring, specimen Q59. The face of the ring contains the inscribed legend "ANZIO 1944". This ring is size  $9\frac{1}{2}$  and contains no other identifying information. The ring itself is brass which has been plated with a white metal which would tend to indicate it is not "home made".

Photographs showing the rings in various positions are enclosed. The rings will be returned to your office under separate cover by registered mail.

Dear Mr Kornegay

An investigation is being conducted by this office to determine, if possible, the identity of an Unknown American Serviceman, who was killed approximately 7 January 1945 in the vicinity of Wingen-sur-Moder, France

Found on these remains were two rings, one which bore the initials "J F K " and the other marked "Anzio-1944"

In view of the fact that War Department Records listed you as Missing in Action on 2 January 1945 in that area, and you were supposed to have had two rings marked in this manner, it would be of the utmost value if you could inform this office as to where you may have lost these rings or to whom you may have given them for safe keeping

It is further requested that you give the name, rank and the Army Serial Numbers, if possible, of the members of your Squad, all of whom disappeared about 2100 hours on 2 January 1945 in the same vicinity

A self-addressed envelope, which requires no postage, is inclosed for your convenience

HEADQUARTERS, 179th INFANTRY, APO 45 US Army, 5 March 1945

TO: Commanding General 45th Infantry Division, APO 45, US Army

1 In compliance with 9th Ind an investigation has been made into the circumstances surrounding the disappearance of Pvt John W. Kornegay Jr, 34675075, and soldier's possession of certain rings

2 Soldier was on the Anzio Beach head. In the summer of 1944 in Naples Pvt Kornegay prepared several rings for mail, some among which was a gold ring bearing initials. Investigation fails to reveal whether at the time of his disappearance Pvt Kornegay was wearing one ring, or two. That he wore a ring, or rings, is agreed. No member of his organization has been able to testify surely whether Kornegay wore two rings. No witness has ventured to describe any ring that Kornegay is said to have worn.

3 Attached is an IA statement prepared on the disappearance of Pvt Kornegay. Soldier's entire squad disappeared at about 2100 on 2 January 1945 in the same vicinity described in the attached statement. No word has been received in this headquarters regarding the fate of any of its members several days after his casualty. Our troops recaptured the ground where it had occurred and discovered the place where Pvt Kornegay's squad had been searched and stripped. No belonging of Pvt Kornegay was identified among the litter of equipment, personal articles and old letters recovered here, although other members of the squad were represented among these effects.

4 At dawn on 4 January 1945 the town of Wingen-sur-Oder, then two kilometers behind our lines, housing the headquarters of several combat battalions, was attacked in force by the enemy and quickly brought under their control. The majority of our service troops there, along with their officers, were taken prisoner and held captive in the town. The town was soon surrounded by American reserve troops, who fought three days to retake it and liberate most of our troops still held there by the Germans.

5 This town lies three kilometers directly south of the vicinity where Pvt Kornegay and the remainder of his squad disappeared. The terrain between consists of high hills, steep slopes and deep areas, the whole thickly wooded and an obstacle to travel. Any American captured at the point where Pvt Kornegay disappeared would normally be immediately evacuated north or northeast, in a directly opposite direction from Wingen. It would not have been likely for the Germans to be ill-rated through our lines to a tack Wingen to carry an American prisoner along. Pvt Kornegay did not speak German.

6 It is possible that Pvt Kornegay eluded capture in the vicinity where he was last known to have been, made his way to Wingen-sur-Oder prior to the German attack and was killed there. In so doing he would have had to pass by numerous companies (CP) or sentries of various other units established there from whom he would certainly have inquired directions. No trace of Pvt Kornegay, either as a prisoner in Wingen or as a soldier seeking to return to his unit, has been discovered.

7 There are no other IA or unidentified KIA personnel of this organization with initials JFK.

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

SUBJECT World War II Unknowns  
TO Chief Army Effects Bureau

1 As a result of a survey recently conducted at the Army Effects Bureau by a representative of the Memorial Division it was found that there are approximately 200 cases of World War II Unknowns for whom personal effects are stored at the Bureau. All information pertinent to identification as being extracted from these effects and a complete inventory has been furnished the Identification Branch of all such effects.

2 Since the World War II Unknown personal effects will be of no further value to the Memorial Division for identification purposes authority is hereby delegated to the Chief, Army Effects Bureau to render administrative determinations on disposition of personal effects for World War II Unknowns.

3 A certificate signed by the Chief indicating reasons for disposal of the property will be placed in the case folder and the case closed.

BY COMMAND OF MAJOR GENERAL FELDMAN
