QUEST 293
314.6 GRS European Area
SUBJECT: CIL Remains

1st Ind

Department of the Army, OQIG, Washington 25, D. C. 4 March 1949

TO: Commanding General, American Graves Registration Command, European Area, APO 58, c/o Postmaster, New York, New York

1. Reference is made to basic communication.
2. This Office concurs in the assignment of CIL numbers to all unknowns listed thereon with the exception of Unknowns X-450, X-451, X-452, X-454 and X-456, USEIC La Cambe.
3. In view of the fact that Reprocessing Reports indicate the presence of teeth in each of these cases, it is requested that identification by the assignment of CIL numbers be suspended and that these Unknowns be declared unidentifiable instead.
4. Request that Certificates of Unidentifiability be forwarded to this Office at the earliest practicable date.

FOR THE QUARTERMASTER GENERAL:

T. E. MEYER
Lt. Colonel, CG
Memorial Division

C O P Y

(Basic Ltr Dept of the Army, OCMG, OMCLET 293, 314.6 GRS European Area dated 4 March 1949, subject: CIL Remains)

RRE 314.6 (CIL Remains) 2d Ind

Hq. American Graves Registration Command, European Area, APO 58, US Army,
4 April 1949

TO: The Quartermaster General, Washington 25, D. C.

1. Reference paragraph 3, preceding Indorsement, assignment of CIL numbers to subject remains was accomplished in accordance with sub-paragraphs e, and f., paragraph 118, TM 10-281, Change 1, dated 5 August 1948, since remains were recovered from mass burial, with the remains of Identified Casualties.

2. It has been brought to the attention of this office that in initial Airborne descent in France, partial remains were often caught on Branches of trees, while the body, less partial remains were picked from the ground. It is believed that remains which were previously buried in mass grave, from which Unknowns X-450, X-451, X-452, X-454 and X-456 were recovered may well fall into this category, and were picked up by German Troops and buried with the two (2) remains now identified.

3. Every possible attempt has been made by this office to associate teeth for subject Unknowns with casualties in area from which remains were recovered, with negative results, therefore, it may be possible that subject teeth belong to other remains which were recovered, identified, and possibly since returned to the United States for burial.

4. In view of above remarks it is requested that statement contained in paragraph 3, 1st Indorsement be reconsidered, and that CIL numbers originally assigned these Unknowns be retained.

5. Records of the headquarters will remain unchanged, pending receipt of reply to above.

SUBJECT: Central Identification Laboratory Remains

Dept. of the Army, O&M, Washington 25, D. C., 21 October 1949

TO : Commanding General, American Graves Registration Command
European Area, APO 58, c/o Postmaster, New York, New York

1. Reference is made to paragraph 3, preceding Indorsement.
2. In view of the fact that no positive evidence is available to substantiate the possibility that the subject Unknowns are actually parts of previously identified decedents, it is the opinion of this Office that the remains should not be assigned CIL numbers.
3. It is requested, therefore, that these cases be received as prescribed by paragraph 2a, O&M letter, dated 26 July 1949, file Q&M 293, Subject: "Disinterment Discrepancies".
4. Further request that appropriate findings be forwarded this Office at the earliest practicable date.

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

Signature of Officer or other person who prepared Tooth chart

Verified by G. R. S. Officer

1

MISSING TEETH... All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be "X" 'd out and labeled, thus :

CROWNED TEETH... Block in solid the crown of tooth (label gold, porcelain, Silver or gold and porcelain), thus :

BRIDGE WORK... Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge), thus :

FILLINGS... Draw filling on tooth as accurately as possible (block in and label gold, silver, cement), thus :

CARIES (CAVITIES). Outline location and size of cavity, shade in thus :

DENTURES (PLATES)... Draw diagram of relative size and shape of plate, block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp."
