CASE HISTORY

UNKNOWN NO. X-1047 A & B U.S. MILITARY CEMETERY

A thorough investigation has been conducted in an effort to associate the remains of Unknowns X-1047 A & B, recovered from Lindenthal, Germany (N-52/E-22) with an unresolved casualty or casualties however, the condition of the remains prevented an association by physical or dental records comparison.

The estimated height of X-1047 A, obtained solely by the measurement of the left femur (fractured) and the two teeth present, dommon to both remains, cannot be considered as conclusive to aid in the establishment of an identification.

Unknowns X-1047 A & B, could possibly be associated with casualty crew members of A/C 42-31771 as the subject unknowns were originally disinterred as BEST, Willard R., an unresolved casualty crew member of subject aircraft, however, there is insufficient data with the remains and case papers for a positive identification.

In view of the negative results of the investigation mentioned above, it is recommended that X-1047 A & B be declared Unidentifiable.
