LEFT

Note - Black out portions are present.

NARRATIVE

The remains of S&R #81 and those of CIL #4762 were processed for possible association with TURNER, Robert W 2 Lt.

Processing revealed that S&R #81 consisted only of bone fragments which included skull fragments for three (3) remains. These remains were designated CIL # 4794 A, B, & C. The teeth found are negative for TURNER and were left with CIL #4794A which is also negative for TURNER. (See tooth and skeletal charts)

CIL # 4762 could not be consolidated with CIL #4794A however it could be portions to CIL #4794B or C. Since no basis was found for consolidation it remains as CIL # 4762.
