HEADQUARTERS ICELAND BASE CO AND
(1586th AAF Base Unit)
Atlantic Division, ATC
APO 610 c/o Postmaster
New York, N. Y.

6 January 1947

Mr. Sheldon Thomas
American Minister a/i.
American Legation
Reykjavik, Iceland

Dear Mr. Thomas:

It is reliably reported that numerous bodies were washed ashore on the northwest peninsula of Iceland a short time after the marine disaster involving numerous American vessels, which occurred in August 1942. There were no American troops stationed in this area, and due to the isolated location, burials were made by local Icelanders.

Due to the imminent movement of U.S. troops from Iceland it is therefore imperative that we gain complete information about the location of U. S. dead in Iceland. This information is necessary so that in the event that future plans call for their repatriation, plans can be readily formulated. At the present time tentative plans have been made for the repatriation for the American dead buried in Iceland (Póssvogur Cemetery) this spring and summer.

It is therefore respectfully requested that you approach the proper Icelandic authorities to ascertain the whereabouts of any American dead buried in an isolated location in Iceland. Complete information as to name, rank, serial number, etc. should be furnished as far as possible.

Sincerely yours,

IRA D. BENDER
Colonel AC

No. 26.

The Ministry for Foreign Affairs presents its compliments to the Legation of the United States of America and has the honour to refer to the Legation's note No. 677 and the Ministry's notes No. 19, dated January 14 and 27 respectively, regarding a request for permission to repatriate the remains of United States Citizens buried in Iceland.

The Ministry of Justice and Church has now granted formal permission for this action, provided that provisions of law no. 78 of June 27, 1941 and of regulation no. 159 of September 27, 1941, be adhered to, and that the health authorities in each place supervise the action together with the supervisor of the churchyards in each place.

The Ministry will as soon as such data are available, inform the Legation of the number and location of deceased Americans about whom the United States Army Authorities do not have any record.

Minister for Foreign Affairs

Reykjavik, 6th February 1947.

Legation of the United States of America,

REYKJAVIK.

HEADQUARTERS ICELAND BASE COMMAND, (1386th AAF Base Unit), Atlantic
Division, ATC, APC 610 c/o Postmaster, New York, N. Y., 5 March 1947

TO: Headquarters American Zone, American Graves Registration Service
Brooklyn Army Base, 1st Ave & 58th St., Brooklyn 20, N. Y.

THRU: Commanding General, Atlantic Division, ATC, Ft Totten, N. Y.

1. This correspondence is returned with request for recon-
sideration of directive contained in the preceding Indorsement, and
in paragraph 1 of the foregoing 2nd Indorsement.

2. Basic communication was predicated on the possibility
that there might be burials in Iceland hitherto unreported by this
headquarters, and was forwarded for information and possible future
action based on eventual factual information obtained, or to be
obtained, through local state department channels. The only info-
mation presently available to this headquarters regarding these
burials is of a hearsay nature and completely unauthentic. For
this reason, action was taken to solicit assistance of Icelandic
authorities as indicated in Inclosure No 4 on the possibility that
some factual data might be obtained. Our request was in turn re-
ferred by the American Legation to the Icelandic Ministry for
Foreign Affairs. The action of this State Department is indicated
in their note No 26 which has been added as Inclosure No 5,
and which was received subsequent to writing of Basic communi-
cation. Attention is especially invited to the last paragraph of
this note.

3. This command does not have Graves Registration Service
personnel available to accomplish the concentration directed in the
preceding two Indorsements, nor can a project of this kind be ac-
complished within any specified period of time in the near future.
Attention is invited to the fact that this Command is committed to
complete evacuation from Iceland prior to 5 April 1947. Accord-
ingly, it is recommended that all future action in this matter be
handled by personnel of the Headquarters American Zone, AGRS.,
on their arrival in Iceland as indicated in Paragraph 2 of the
foregoing 2nd Indorsement.

TO : Headquarters American Home
American Graves Registration Service
Brooklyn Army Base
1st Avenue and 58th Street
Brooklyn 20, New York

INFO: Commanding General
Atlantic Division, ATC
Fort Totten, Long Island, New York

1. This headquarters has previously reported to the Quartermaster General that there are no deceased military personnel buried elsewhere in Iceland other than burials in Fossvogur Cemetery (American and Allied Nations dead), and Trautarholt Cemetery (enemy dead). Records recently brought to light appear to indicate the possibility of numerous burials in isolated parts of Iceland of suspected American dead, particularly the Northwest Peninsula. These records are brief, sketchy, and completely unauthenticated, and on the surface appear to offer little information which might lead to establishment of factual data. However, they do suggest the possibility of burials which have not previously been reported.

2. Copies of the previously undisclosed records referred to in the foregoing paragraph are enclosed as Inclosures # 1, 2, and 3. On the basis of this meager information the American Legation in Reykjavik has been requested to solicit the aid of Icelandic authorities in an effort to obtain factual information regarding these suspected burials. Letter of this headquarters to the local American Minister embodying this request is enclosed (Incl #4).

3. The foregoing information is furnished you at this time in view of the imminent withdrawal of U.S. troops from Iceland. Under existing governmental agreements, evacuation must be completed by 7 April 1947, and since, so far as now known, the project to repatriate American dead from this zone will not be undertaken until this forthcoming spring and summer, it is desired to lay such groundwork as may be necessary to insure the availability of all obtainable information on which to formulate repatriation plans. Your comments and suggestions in this connection, with special reference to paragraph 1 and 2 above, are requested.

TOOTH CHART

July 14-47
 Date

Last Name	First	Initial	Rank	Serial No.
Unit		Organization		
Place of Death	Date of Death	Cause of Death		

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

P. C. Harry H. Wallace H 6 RS
 Signature of Officer or other person who prepared Tooth chart
