From: Commander Amphibious Group THIRTEEN,
U.S. Pacific Fleet.
To: Commanding Officer, C.I.O. Area No. TWENTY-FOUR.
Subject: Interrogation of Prisoners of War, - Report on.

Enclosures: (A) Statements of 1st Lt. YOSHIOKA.
(B) Statements of 2nd Lt. KAI.
(C) Statements of 2nd Lt. OKUDA.
(D) Statements of 2nd Lt. KIKUCHI.
(E) Statements of Sgt. Maj. WADA.
(F) Statements of Private First Class WATANABE.
(G) Statements of Leading Private ISHIDA.
(H) Statements of 1st Class Private SATO.
(I) Statements of Sgt. INOUE.
(J) Statements of 2nd Class Private OTA.

1. Information contained in the following paragraphs was derived by Language Officers of this command from interrogation and signed statements of Prisoners of War. All prisoners interrogated were stationed at SAN JOSE, PANAY, during March, 1945. When the officers whose statements are appended in enclosures above were first interrogated they told a complicated lie. The truth was elicited only after much checking and reinterrogation. It is believed that the statements of facts in paragraphs 2 and 3 are an accurate, if general, picture of the actual proceedings.

2. On or about 15 March, 1945, two P-61 airplanes reconnoitered the area of SAN JOSE, PANAY. One crashed due to engine trouble, one of its occupants being killed instantly and the other severely injured about the head. The injured man, name unknown, is described as weighing about 132 pounds and being about 5 ft. 4 in. tall. The dead man was probably a Second Lieutenant. The injured man was a non-commissioned officer. Their plane was based on MINDORO. The wounded man was discovered by the ISHIDA UNIT, whose duty was guarding the airfield at SAN JOSE, and was handed over to the YOSHIOKA Guard Company which garrisoned SAN JOSE. He was given medical treatment and interrogated several times. 1st Lieut. YOSHIOKA, Commanding Officer of the SAN JOSE Guard Company, informed Headquarters of the TOZUKA Battalion, in ILOILO, that he had this prisoner and requested information as to disposition. He was informed that a boat would be sent from ILOILO to pick up the prisoner and return him to BATTALION Headquarters. Due to the American landing on PANAY, the boat never arrived. On 19 or 20 March, at the direct order of 1st Lt. YOSHIOKA, Cpl. MIYAJI and Pfc. SATO

STATEMENT OF 1st Lt. YOSHIOKA

On the 15 or 16 March, at about 1000, I heard an explosion which indicated an apparent crash of an airplane north of the San Jose Airfield. Immediately the ISHIDA Unit (T.N. Lt. Ishida's platoon) spent about an hour in a search but reported it could not discover anything. Consequently it was planned that my company too would search after lunch, but just then the ISHIDA Unit brought back an American pilot covered with blood. I tried to interrogate him, but he had a large lacerated wound above his ear on top of his head, which was gushing forth blood. Since his skull apparently had been fractured, I had a corpsman apply treatment. Afterwards I questioned him, but I could not get anything satisfactory. All I could make out was "I flew from an air field in MINDORO and I was asking a reconnaissance of the SAN JOSE area." Accordingly I had him hospitalized the ward where he was given daily treatment, but he had no appetite and found walking difficult, lost weight, and his health declined.

I think it was on 18 March that Sgt. KUMAGAI came and once more (we) attempted to interrogate. However we could understand almost nothing and there was nothing we could do but end the interrogation after about ten minutes.

On 19 March at 1430 in an exchange of communications I received a dispatch stating that the American forces had arrived at ILOILO and were engaged in battle. The company and all platoons were engaged in preparations for battle and at the same time were preparing for the withdrawal from SAN JOSE.

At that time the Officer of the Day came up and inquired "We can't take along the American pilot. What shall we do?"

"Dispose of him as you think best," I ordered. Whatever happened after that I don't know clearly. Whether he is dead or what, I don't know but I think that he is buried in the rear (T.N. of the Company area).

STATEMENT OF PFC. SATO

1. I have forgotten the date, but while I was on a detail Cpl. MIYAJI was passing and ordered me to come along because the execution was about to take place.
2. I went along with Cpl. MIYAJI to the guard house and we led him (TH: the American) to the scene of the execution.
3. At the scene of the execution Pfc WATANABE AND 2nd Class Private OTA were finishing the digging of a hole.
4. The execution was performed by Cpl. MIYAJI with a Japanese sword.
5. Pfc. WATANABE and 2nd Class Pvt. OTA did the burying.
6. I think the time was about 1700.
7. At the execution, Cpl. MIYAJI beheaded the prisoner but since he did not make a clean job of it and the man was suffering, Cpl. MIYAJI ordered me to finish him off, so I stabbed him in the heart with a bayonet.

STATEMENT OF 2ND CLASS PRIVATE OTA

In accordance with the orders of Squad Leader MIYAJI, I went with Pfc. WATANABE and dug a hole beside the church, having been ordered to do so, in as much as Squad Leader MIYAJI, Pfc. WATANABE, and I were to kill the American at that time.

The American was escorted by Squad Leader MIYAJI, AND Pfc. SATO.

Squad Leader MIYAJI decapitated the prisoner. Pfc. SATO stabbed the prisoner's stomach with a bayonet.

In accordance with the orders of Squad Leader MIYAJI, Pfc. WATANABE and I buried the executed American in the hole we had dug, and then returned.

The American to be executed was made by Squad Leader MIYAJI to sit on the side of the hole.

I have forgotten the day on which the American was executed. I think the time of day was about 1600.

In this indorsement this headquarters expresses the opinion that the remains received by this office as 2nd Lt Donald H. Armstrong consist of only part of the deceased's remains. Authorization, by 3rd wrapper indorsement, to identify the remains interred in this cemetery as Unknown X-370 in grave 6265 to Lt. Armstrong would be impossible as we now have remains (incomplete) interred as 2nd Lt. Armstrong in grave 8403.

2. This headquarters hereby requests authority to combine the remains of Unknown X-370 and the remains interred as Lt. Armstrong to constitute the total recovered remains of 2nd Lt. Donald H. Armstrong.

1. Careful reference to preceding indorsements and attachments will furnish clarification of the status of the two men involved. The case of Lt. Armstrong is considered closed. The case of Flight Officer Lally is very clearly traced up to the point of taking custody of the remains by personnel of the 40th Division, Lt. Kramer (Krammer) and Sgt. Slate (Slake), see Incl. 3 et al. There is little doubt that the remains recovered by them reached Iloilo.

2. Par. 3, 2nd W/Indorsement, largely explains why this case has not been solved. Desire information on the current status of these records and if not yet received, desire an outline of the steps taken to date.

3. These records may not actually name F/O Lally, but a beheaded corpse of a very small man with fractured skull above the ear are better clues than average.

4. Reference par. 4, 2nd W/Indorsement, the allusion to the two Navy remains should not be allowed to confuse the search for Lally. There is excellent evidence (Incl. #4) that Lally's remains were recovered. Tooth charts of the available unknowns are not considered by this headquarters the only means available for identity, as stated. More careful investigation is recommended to enable this case to be closed.

1. Attention is invited to par 3, 1st W/Indorsement.

2. A thorough check of knowns and unknowns at Iloilo #1 fails to reveal that the remains of F/O James J. Lally were ever brought to that cemetery. It is believed possible that in disintering the remains of the two Naval fliers who were executed at the same spot as F/O Lally, the remains of F/O Lally were overlooked and may possibly be in the same grave that he was buried in by the Japanese.

3. Desire that an investigation be conducted at San Jose, Antique, Panay Island for the possible recovery and interment of F/O Lally. A native by the name of Pedro Villavert who can be reached thru the parish priest at San Jose knows the exact location of the graves as he witnessed the disinterment of the Naval fliers.

4. In the event the remains are recovered, a very careful examination should be made for possible identification and no object overlooked that may possibly be a clue. The Report of Interment and a complete report of the investigation should be forwarded with the return of this correspondence.

1. Several small bones presumed to be ribs.
2. Piece of skull bone.
3. Jaw bone and vertebrate.
4. Several shoe soles of different sizes.
5. Ladies vanity case and lipstick tube.
6. Small tin containing buttons.

b. The armbone included in the box was found near the south end of the wing.

2. The coconut shell which was included in the box was put there by mistake. It was not dug up nor presumed to be a part of the body.

3. From all information available (i.e.-statements from Japanese POWs and natives) it is my belief that the remains exhumed are the remains of the pilot of the plane-2d Lt. Donald H. Armstrong O-773925.

4. One native states that he saw the body shortly after the crash and states further that one or two of the limbs were dismembered.

5. I presume the vanity case and lipstick tube to have been in the possession of the pilot at the time of the crash.

2. Memo to Report of Interment for Unknown X-370, USAF Cemetery Leyte #1, formerly Unknown X-3, USAF Cemetery Kioilo #1, Panay, P.I., says in referring to Casualty Report of Lt Armstrong and P/O Lally: "After the completion of this report of interment, the attached two Casualty Reports were submitted to this headquarters. In view of the fact that the dates of death and geographical location concerned agree precisely - and association of plane numbers would seem to be implied - this headquarters submits these two (2) Casualty Reports with the hope that further investigation by higher headquarters may establish the identification of these unknowns".

3. Remarks on original report of interment are:

a. The remains consisted of but charred bones and it was thus impossible to determine data listed above or to take fingerprints or a tooth chart (teeth not found).

b. Japanese prisoner states that this is the body of the pilot of P-61-592. According to same POW "Gunner (S/Sgt) of this plane was executed by Japanese but the whereabouts of his body is unknown. Note: Plane in which Lt Armstrong was flying at time of crash was P-61 42-5592.

4. Paragraph 3 and 4, of 2nd Indorsement referring to investigation and recovery of remains of Lt Armstrong reads: (Par 3) From all information available (i.e.-statements from Japanese POWs and natives) it is my belief that the remains exhumed are the remains of the pilot of the plane - 2nd Lt Donald H. Armstrong, O-773925. (Par 4) One native states that he saw the body shortly after the crash and states further that one or two of the limbs were dismembered.

5. The 4th W/Indorsement describes the remains interred as Unknown X-370 and as 2nd Lt Armstrong as follows:

a. The remains of Unknown X-370, Leyte, P.I. consist of only a charred hip bone.

b. The remains of 2nd Lt Donald H. Armstrong consist of charred Vertebrae, one arm bone, pieces of skull and miscellaneous other pieces which are unrecognizable.
