SUBJECT: Identification of World War II Deceased

TO : Commanding Officer
American Graves Registration Service
Philcom Zone
APO 900, o/o Postmaster
San Francisco, California

1. Reference is made to Proceedings of your Board of Review, dated 7 February 1949, recommending individual identification of Unknown X-850, AGRS Mausoleum, Manila, P.I., as the remains of Cpl. James Kim Efshoff (USMC), 26C 058, and Unknowns X-851, -854 and X-856 - X-858, AGRS Mausoleum, Manila, P.I., as a Group Burial of the following deceased personnel:

Martin, Alex	Cpl.	6 571 337
Penny, Bruce H.	Cpl	14 039 411
Ulrich, Ernest H.	Cpl	38 054 475
Pierce, Robert C.	Sgt	6 825 221
Hasselkus, Howard L.	Sgt	35 015 891
Thorne, Gale H.	Pfc	5 565 951
Crouse, David D.	1st Sgt	R 740 489

2. After an intensive study of these cases, it is considered that the evidence presented cannot be interpreted as sufficient for individual or group identification.

3. The association of these eight decedents with the remains recovered from Cabanatuan POW Cemetery, is based upon information contained in the Cabanatuan POW Death Report. Experience with this report has proved it to be a valuable aid for the association of decedents with Unknown remains. However, in repeated instances, it has been shown that the report does not constitute substantive proof within itself. Therefore, it is subject to qualifying or substantiating comparison of dental and physical data.

4. Physical and dental records for the decedents involved in these cases are probably incomplete. They represent a marked similarity which would probably compare equally well with any cross-section of remains recovered from Cabanatuan Cemetery.

5. Since there is no adequate substantiating evidence available in this case, Board Proceedings have been disapproved and are returned herewith.

Remains Unknown X-850 (formerly Unk. X-372 Manila #2) was examined for a Colles fracture of the left wrist.

The left radius was not present with this remains to prove or disprove a Colles fracture. The distal end of the left ulna was eroded further defeating check of this area for an old injury. The Carpus or wrist-bones were not recovered with the remains.
