This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

<p><b>MISSING TEETH...</b> All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be "X" 'd out and labeled, thus :</p>	 <p style="text-align: center;">Tooth missing</p>
<p><b>CROWNED TEETH...</b> Block in solid the crown of tooth (label gold, porcelain, Silver or gold and porcelain), thus :</p>	 <p style="text-align: center;">Gold crown      Porcelain crown</p>
<p><b>BRIDGE WORK...</b> Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge), thus :</p>	 <p style="text-align: center;">Gold bridge</p>
<p><b>FILLINGS...</b> Draw filling on tooth as accurately as possible (block in and label gold, silver, cement), thus :</p>	 <p style="text-align: center;">Gold filling      Silver filling</p>
<p><b>CARIES (CAVITIES).</b> Outline location and size of cavity, shade in thus :</p>	 <p style="text-align: center;">Cavity      Decayed</p>

**DENTURES (PLATES)...** Draw diagram of relative size and shape of plate, block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp"

**ADDITIONAL SPACE FOR FURTHER REMARKS**

Spaces : L-13-16 : 12 mm

Color : )  
 Size : )      U.T.D.  
 Alignment : )

Note

These teeth are in a very poor shape. From the appearance of this mandible, it suggests that the deceased was an old man. Also the appearance of the jawbone indicates that the deceased never had too much dental care. It appears that this mandible does not belong to any American Military Personnel.
