SUBJECT: ~~Reinvestigation Findings~~

Ident.

1st Ind

Department of the Army, OQM, Washington 25, D. C., 20 Apr 1951

TO: Commanding Officer, 7887 Graves Registration Detachment,
APO 757, c/o Postmaster, New York, New York

1. Reference is made to paragraph 8, basic communication.
2. Although the information submitted indicates the possibility that remains recovered from Leoding Cemetery may be associated with deceased reported interred in St. Martin Cemetery, the available evidence is not sufficient to substantiate any identification without additional supporting data.
3. The remains of Unknown X-6658 St. Avold were recovered from St. Martin Cemetery, however, the teeth placed with the remains were recovered from Leoding Cemetery as a part of a mass burial designated Unknown X-6810 St. Avold. The tooth chart, with the exception of the portion of left mandible, is comparable with dental records for Sgt. Raven. The processing report does not indicate that the mandibular portions articulate with the skull or that the portions occlude with the maxilla. There is no evidence to indicate that the remains were co-mingled during initial recovery and interment in the two civilian cemeteries.
4. The fragmentary condition of partial remains indicates that certain Unknown remains may be portions of the additional remains involved, not included in the simultaneous reprocessing. Processing reports are not available for associated remains identified as:

Cpl. Burton F. Mitchell, Jr.	14148527 (St Martin Cem.)	St Avold K-27-9
Sgt. Kenneth E. Simmons	37537356 (St Martin Cem.)	St Avold B-33-5
T/Sgt. Arthur J. Sullens	37531188 (St Martin Cem.)	St Avold A-19-3
S/Sgt. John P. Tarini	20510504 (Leoding Cem.)	St Avold G-10-11
Sgt. Howard N. Young	33902876 (Leoding Cem.)	St Avold C-10-85
5. Dental comparison charts and a brief summary of the findings of this Office for each of the remains reprocessed on Exhumation Orders 3351 and 3287 are inclosed for your information and as an aid in processing.
6. It is requested that the remains indicated in paragraph 4 be processed, at grave side if desirable, to verify the identifications and segregation of remains. Should processing indicate that the remains may not be properly segregated or that a consolidation of certain portions of the additional remains involved is possible, it is requested

ANTHROPOLOGICAL REPORT (continued)

2. CONCLUSIONS

- a. The remains of the following deceased should be individually identified as indicated:
- | | | | | | | | |
|-----|----------|----|--------|------|----------|----|----------|
| (1) | X-6802 B | as | Brown | (6) | X-6690 | as | Compton |
| (2) | X-6806 A | as | Kramer | (7) | X-6522 | as | Lubinski |
| (3) | X-6779 | as | Rauen | (8) | X-6802 A | as | Simpson |
| (4) | Lubinski | as | Lowry | (9) | X-6810 | as | King |
| (5) | X-6791 | as | Riley | (10) | X-6596 | as | Sturgess |
- b. The remains of the following deceased can not be associated with 371 submitted:
- | | | |
|-----|----------|------|
| (1) | X-6661 | (6) |
| (2) | X-6802 C | (7) |
| (3) | X-6402 D | (8) |
| (4) | X-6586 | (9) |
| (5) | | (10) |

NARRATIVE

The following is the result of reprocessing the remains listed on Exhumation Order # 3351 and supplement to Exhumation Order # 3351:

Proper segregation which involved interchanging certain anatomical portions was effected.

Unknown X-6806 B was eliminated through consolidation, see before and after skeletal charts of cases X-6810, X-6586, X-6806 A and X-6661.

CIL 3985 was found to be old bones and is not believed to be remains of World War II deceased.

	<u>Age</u>	<u>Height</u>	<u>Weight</u>	<u>Color of hair</u>
X-6802 B (Remains)	27-30	5'5 3/4"	-	Light brown
BROWN (371)	29	5'7"	-	Light brown
Believed to be Brown. The teeth for Brown were found herewith, however, no articulation of the teeth was established because of missing portions.				
X-6806 A (Remains)	18-20	5'11 3/4"	-	Blond
KRAMER (371)	19	5'10"	-	Blond
Believed to be Kramer. No teeth recovered for Kramer.				
X-6479 (Remains)	20-22	5'9 1/4"	-	Brown
RAUEN (371)	21	5'9 1/2"	-	Brown
Believed to be Rauen. The teeth for Rauen were found with X-6802 B and were placed herewith. No articulation of teeth established because of missing portions. The cranium found with these remains is mesocranial (mediumheaded). Cranial Index: 76.3. As the nasal bones are broken, it was not possible to calculate the nasal index.				
LUBINSKI (Remains)	21-24	5'10 3/4"	-	Brown
LOWRY (371)	22	5'11"	-	Brown
The remains designated as Lubinski do not compare favorably with the Form 371 for Lubinski and are very favorable for those of Lowry. The teeth for Lowry were found herewith and articulation between the teeth, skull and vertebral column was established. Remains should be reidentified as Lowry. The cranium found with these remains is dolichocranial (longheaded). Cranial Index: 73.0. As the nasal bones are broken, it was not possible to calculate the nasal index.				
X-6731 (Remains)	18-20	5'3 1/2"	-	None found
RILEY (371)	18-19	5'4 1/2"	-	Brown
Believed to be Riley. The teeth for Riley were found with X-6806 A and were placed herewith. No articulation of teeth established because of missing portions. As this is the youngest and shortest of the remains, X-6731 compare very favorably with Riley, youngest and shortest of the decedents.				
X-6690 (Remains)	20-23	5'11"	-	Dark brown
COMPTON (371)	21	6'0 1/2"	-	Black
Believed to be Compton. Teeth for Compton were found herewith and articulation between the teeth, skull and vertebral column was established.				
X-6522 (Remains)	19-22	5'6 1/2"	-	Brown
LUBINSKI (371)	19	5'6"	-	Brown
Believed to be Lubinski. The teeth for Lubinski were found with X-6479 and were placed herewith, however, no articulation of teeth established because of missing portions.				
X-6802 A (Remains)	19-21	5' 7/8"	-	Brown
SIMPSON (371)	19	5'10 1/2"	-	Dark brown
Believed to be Simpson. The teeth for Simpson were found herewith and articulation between the teeth, skull and vertebral column was established.				
X-6810 (Remains)	22-25	5'10 3/4"	-	None found
KING (371)	24	5'10"	-	Blond
Believed to be King. The teeth found herewith are those of King and articulation between the teeth, skull and vertebral column was established. Evidence of a healed injury (partial fracture?) was found at about middle shaft of right tibia.				

	<u>Age</u>	<u>Height</u>	<u>Color of hair</u>
X-6596 (Remains)	20-23	5'7 1/4"	None found
STURGEON (371)	21	5'6 1/2"	-

Believed to be Sturgeon. The teeth for sturgeon were found herewith, however, no articulation was established because of missing portions.

The following remains were reprocessed and no association with 371 submitted is made:

X-6802 C (Remains)	UTD	UTD	UTD
No teeth.			

X-6661 (Remains)	21-24	6' 3/8"	Brown
No teeth.			

X-6802 D (Remains)	over 20	5'11 3/4"	None found
No teeth and the height was computed from one bone (tibia) measurement.			

A-6586 (Remains)	21-24	5'6 7/8"	Brown
No teeth.
