CASE HISTORY

Unknown X-9055

AGRS Liege Mausoleum  
Grave # 56

1. During a field investigation on 25 July 1951 to locate the remains of S/Sgt John E. HUTCHINS, 16 087 928, the subject Unknown was disinterred from an isolated grave, "Foreigners Cemetery" at the former Marienthal Air Base, near Helmstedt, Germany. Narrative of Investigation indicates an American flying suit and US type flying boots were recovered with these remains.

2. German Dulag Record (Microfilm #122868) indicates that S/Sgt Hutchins was buried in the "Foreigners Cemetery" of Helmstedt on 1 May 1944 at 1630 hours.

3. As a result of previous AGRS field investigations conducted in May 1947 and January 1949, two (2) mass graves of American deceased were disinterred from the Marienthal Air Base cemetery. It is noted that none of these remains recovered could be associated with S/Sgt Hutchins.

4. Records of this Detachment disclose that S/Sgt Hutchins was the only casualty crew member of B-17 aircraft # 42-97559, which crashed near Siestedt, Germany on 29 April 1944.

5. CIL reprocessing revealed that portions of two (2) remains were present with Unknown X-9055. Proper segregation was effected and the excess portions were assigned CIL # 4806.

6. Narrative of processing states the estimated age of the remains is comparable with the age of S/Sgt Hutchins. However, the narrative further indicates that the remains consist of too few anatomical portions to establish a favorable association with the subject decedent.

7. Therefore, due to the lack of sufficient identification data with which to substantiate the association cited above, the remains of Unknown X-9055 is hereby being classified Unidentifiable.

Records reveal S/Sgt John E. Hutchins, 16087928, was the only casualty of a crew of 10 when AC 42-97559 was shot down in the vicinity of Siestedt, Germany, 29 April 1944. German records further indicate his remains were interred at 1630 in the Foreigners Cemetery of Marienthal Airbase near Helmstedt, Germany, 1 May 1944. However, Narrative Report, dated 9 May 1947, indicates all reports submitted by the Air Base Command in Marienthal listed the burial place of Allied Fliers as "Foreigners Cemetery Helmstedt" regardless of whether they were buried there or not. (The other 9 crew members of AC 42-97559 who were taken POWs were listed in the German records by name and ASN. Id Tags for 8 of the men were recovered by the Germans).

Records further reveal remains of all the 26 crew members KIA when 5 other AC crashed about the same date and vicinity as subject plane, have been recovered and identified.

The 9 crew members from 3 of the crashes near Helmstedt and surrounding area who were recorded together on the Enemy Casualty Form as buried on 1 May 1944 at "Foreign Cemetery, Helmstedt, Germany," are:

- Stevenson, Walker, Matthews, Sproat, Irvine and Frisbie of AC 42-97501.
- Guyton and Tobin of AC 42-37868.
- Hutchins of AC 42-97559.

Comparison of Hutchins with remains identified as the other 8 listed as interred as above noted is as follows:

							dental of x-no	w/name	w/Hutchins
	Hutchins	5' 10"	144#	22	Brown

"	Guyton	5' 11 1/2"		24-29	Brown		ok		negative
"	Irvine	5' 8"	150#	UTD	Lt brown	ldy mark	ok		negative

When previous searches failed to recover any remains identifiable as Hutchins, Special Investigation under Investigation Directive #810 was instituted with the results that the remains of X-9055 Liege, were recovered from an isolated grave in a turnip field located where the Foreigners Cemetery had once been. Narrative of Investigation indicates the remains were in a very shattered and carbonized condition. Parts of a flying suit, flying boots and melted parts of plane wreckage were recovered with this remain. CIL Reprocessing indicates this recovery, mangled but not burned, consisted of 2 partial remains. The excess portion was assigned CIL #4806 by the Field.

Due to the possibility that the remains of Hutchins may not have been interred as recorded in the above cemetery, and to the lack of identifying data as well as the fact that other Americans may have been interred in this cemetery, it is believed that the portion of remain designated CIL #4806 by the Field should be accepted as such by this Office and the remains of X-9055, Grave 56, Liege, should be approved unidentifiable.

X-9055 Liege, APPROVED UNIDENTIFIABLE BY MAJOR COX, per RADIO AGRS 4168, 24 Oct 1951.

NARRATIVE OF INVESTIGATION  
AND DISINTERMENT

I. MATTERS INVESTIGATED:

On July 18 1951 the undersigned and Mr. Koch proceeded to Mariental near Helmstedt (Y-21) to investigate AGR Case # 6967, Spec. Invest. as directed by Investigation Directive # 810.

The case pertains to S/Sgt. John E. HUTSCHINS, ASN 16087928, who is the only missing crew member of B-17 a/c Nr. 42-97559, that crashed in the vicinity of SIESTEDT (Y-21) (Russian Zone) on 29 April 1944.

German Dulag report shows that subject deceased was buried in the foreigner cemetery of the Mariental air-base.

During previous investigations and disinterment operations in the Mariental air base cemetery two mass graves were located and disinterred. One grave contained the remains of seven (7) US deceased and the other one contained the remains of nine US deceased. The remains of Sgt. Hutschins could not be found or identified during the previous operations.

II. FACTS AND CIRCUMSTANCES:

Before this investigator proceeded to MARIENTAL a thorough check of all German Dulag records, concerning those American deceased that were buried in the Mariental air base cemetery was made. This check revealed the following burials that were performed in the above cemetery:

a) Nine (9) American deceased were buried in the Mariental air base cemetery on 30 April 1944 at 10.00 hours:

DOWLER, Charles R.	Dulag Nr.	122880
KING, George R.	"	122881
KLEPS, Fred W.	"	122882
CONTI, Sandy	"	122883
Lt. WALKER, R.L.	"	122884
BROWNSON, Francis N.	"	122885
ARNOLD, Vernon	"	122886
MARABITO, John J.	"	122887
KRAMER, Jr. George F.	"	122888 US

b) Seven (7) American deceased were buried in the Mariental air base cemetery on 30 April 1944 at 10.30 hours:

SPROAT, Thomas E.	Dulag Nr.	122872
GUYTON, Isaak R.	"	122873
WALKER, Leslie R.	"	122874
FRISBIE, John B.	"	122875

Narrative cont.

MATTEWS, Adger, S.	Dulag Nr.	122876
IRVINE, Douglas J.	"	122877
TOBIN, Robert E.	"	122878

c) Four (4) American deceased were buried in the Mariental air base cemetery on 1 May 1944 at 0900 hours:

SPRINGSTEAD, O.K.	Dulag Nr.	122764
ARTHUR, Lloyd J.	"	122765
LAURENCE, S. Sgt.	"	122766
RADLE, G.E.	"	122767

d) One (1) American deceased was buried in the Mariental air base cemetery on 1 May 1944 at 16.30 hours:

Sgt. JOHN E HUTSCHINS	Dulag Nr.	122868
-----------------------	-----------	--------

e) One (1) American deceased was buried in the Mariental air base cemetery on 24 May 1944 at 18.00 hours:

WALKER, Donal E.	Dulag Nr.	
------------------	-----------	--

According to the result of the above office investigation it can be concluded that the deceased mentioned in paragraphs a.) and b.) might be those that were previously disinterred from two (2) mass graves in May 1947 and January 1949. Furthermore it can be concluded that Sgt. Hutschins was buried in an isolated grave because he is the only deceased that was buried on 1 May 1944 at 16.30 hours.

We proceeded to Mariental and located the former air base cemetery which is now used as a turnip field. No traces of any graves could be seen. The sketch of the former Mariental air base cemetery which I obtained from HQ AGR showed me the approx. location of the former two (2) Mass graves. At first we started digging around the area of those two graves; several trenches were made but no human remains could be found. We then started to dig trenches about four feet each from the next grave continuing all over the field.

On July 25 1951 we located one isolated grave that contained the remains of one American airman. The remains were in a very shattered and carbonized condition. No means of identification could be found in spite of a thorough search. Parts of an American flying suit and two US flying boots were found. There were also some melted parts of plane wreckage buried with the deceased which shows that this deceased was partially burnt in the plane wreckage and that the carbonized remains which were found are the only recoverable remains of this deceased. The size of the flying boots and the size of the remains might be associated with S/Sgt. Hutschins. The remains were packed in a proper manner and assigned Evac. S/R 86. After the whole field was searched no more human remains were found.

III. FINDINGS:

- a) According to German Dulag records and according to previous disinterments performed by AGR teams the following burials were made at the Mariental air base cemetery:
  - Nine (9) US deceased were buried on 30 April 1944 at 10.00 hrs.
  - Seven (7) US deceased were buried on 30 April 1944 at 16.30 hrs.
  - Four (4) US deceased were buried on 1 May 1944 at 09.00 hrs.
  - One US deceased, listed as S/Sgt. John E. HUTSCHINS was buried on May 1 1944 at 16.30 hrs.
  - One (1) US deceased, listed as Donal E. Walker was buried on 24 May 44 at 18.00 hrs.

Narrative cont.

b) During this disinterment operation one isolated grave with the remains of one American airman was found and assigned S/R # 86.

c) Since German Dulag records show that S/Sgt. Hutchins was the only deceased that was buried on 1 May 1944 at 16.30 hrs. it can be concluded that he was buried in an isolated grave and that the recovered remains S/R # 86 might be those of S/Sgt. Hutchins.

d) Size of flying boots and size of bones of S/R # 86 permit an association with S/Sgt. Hutchins.

IV. RECOMMENDATION:

Remains S/R # ..86.... be forwarded to CIP for final identification.
