NARRATIVE

The remains of:

White, William W., Mahan, John J., Jones, Harold G., Moniuszko, John J.

were processed simultaneously. The bones of each remains were matched and compared and there were no errors in the previous associations of bones each casket contained, nor were there any extra bones present.

The remains were checked carefully and processed and then were wrapped separately and placed in their respective caskets.

21. REMARKS AND ADDITIONAL INFORMATION

Picture an average sized young man of 25 to 27 years of age. This man would have measured at least 5' 6" tall had the bones been intact and measureable. The lack of skull parts precludes any description.

Fluoroscopical examination unnecessary. No teeth present.
