ATTN: Memorial Division

1. In accordance with the provisions of your letter, file QMGMU 293, GRS (Far East), dated 17 September 1948, subject: Resolution of Cases of Unidentified Deceased, the following Unknown remains originally disinterred from Grave 707, Cabanatuan POW Cemetery and presently stored at AGRS Mausoleum, Manila P.I., have been processed by the Central Identification Laboratory and considered "Unidentifiable" by reason of lack of sufficient identifying data:

UNKNOWN X-4416 AGRS Mslm

UNKNOWN X-4420 AGRS Mslm

2. Above listed Unknowns could not be definitely associated with any of the Cabanatuan POW decedents due to insufficiency of positive identification factors.

3. Forwarded herewith, for your consideration, are new QMC Forms 1044 for the above mentioned Unknowns.

4. Also submitted herewith is a list showing the status of all Unknowns recovered from afore-mentioned grave.

SUBJECT: Identification of World War II Deceased

To: Commanding Officer
American Graves Registration Service
Philcom Zone
APO 900, c/o Postmaster
San Francisco, California

1. Reference is made to Proceedings of your Board of Review, dated 22 August 1949, recommending that the remains of unknowns X-1116 and X-1120, NWS Mausoleum, Manila, P.I., be identified as those of 2nd Lt. I. Watson, 3503102 and Pvt. Thomas A. Merritt, 35031075, respectively.

2. A detailed study has been made of the above noted cases, and it has been determined that evidence presented is insufficient to establish identifications. Positive identification cannot be established on the basis of dental comparison in either case since comparisons are inconclusive. The similarity of comparisons of the deceased with other unknown remains recovered from the same grave further prevents positive identification.

3. The association of these decedents with the remains recovered from a common grave, Cabanatuan POW Cemetery, is based upon information contained in the Cabanatuan POW Death Report. Experience with this report has proved it to be a valuable aid for the association of decedents with unknown remains. However, in repeated instances, it has been shown that the report does not constitute substantive proof within itself. Therefore, it is subject to qualifying or substantiating comparison of dental and physical data.

4. Since there is no adequate substantiating evidence available in these cases, the Board Proceedings have been disapproved and are returned herewith.
