General Archives Division
National Archives and Records Service
January 1979

¹ Transcribed by Wesley Johnston (wwjohnston@aol.com) from a copy of the original at National Archives II in College Park, MD. The transcription does not keep the same word/line arrangement as the original but is close. Obvious spelling errors (e.g. "Operatio" to "Operation") have been corrected in the transcript. Posted on the 7th Armored Division web site at <https://www.7tharmddiv.org/docrep/N-Misc-Finding-Aid.pdf>

INTRODUCTION

The following pages contain a listing of the miscellaneous records (M.L.'s) of the Adjutant General's Office relating to operations and activities during World War II in the European Theater of Operations. These records form part of a series of records identified as "Narrative Reports and Supporting Documents Relating to Operations and Activities of the Army During World War II and the Postwar Period ('Operations Reports File'), 194098." The series is from the Records of the Adjutant General's Office, 1917- (Record Group 407) and they were declassified under Declassification Review Project 735017.

Although most of the records pertain to operations and activities in Belgium, Holland, France, Germany, and to the invasions plans for France, some records relate to activities in Italy, Austria, and the United Kingdom. Among the units to which the records pertain, are: the 1st Canadian Army; the 1st French Army; the 2nd French Armored Division; the V, VII, and XIX Corps; the 12th and 21st Army Groups; and the 64th Fighter Wing. The records provide information on such operations and activities as breaching the Siegfried Line; crossing the Rhine; Operations Cobra, Neptune, and Overlord; and the occupation of Germany.

The records include interviews, interrogations, reports, narratives, orders, bulletins, intelligence summaries, lists, maps, overlays, photographs, booklets, organization charts, correspondence, and memorandums.

Note:

(*) indicates the records are missing although the folder for them is contained in the box

<u>BOX</u>	<u>ML NUMBER</u>	<u>DATES AND OPERATION</u>	<u>ADDITIONAL INFO.</u>
