RG 92: American Graves Registration Service [AGRS]
World War II Overseas Cemeteries

SERIES DESCRIPTION

This series is made up primarily of maps, charts, and plans. They document, in most cases, the location of temporary cemeteries within a certain region, the layout of these cemeteries, and/or graveplot identification of American dead. The maps vary in size. Most are dated and have a title block.

There are some textual records comprised of correspondence between on-site Graves Registration personnel and the main headquarters, lists of cemeteries within a region, lists of names of American dead and their grave locations, photographs of a small number of cemeteries, or letter-size sketches of cemetery locations.

Some cemeteries contain only a small number of maps and charts, but no textual information; others contain just the textual records, but no maps or plans. The absence of one type of document (text or maps) is indicated in brackets at the end of the cemetery name. If a cemetery name has no brackets after it, then it has maps, charts, plans, and textual records.

This series is arranged by continent or geographic area (Africa, Asia, Caribbean Basin, Europe, North America, and Pacific), thereunder alphabetically by country or island group, and then thereunder alphabetically by name of cemetery.¹

For further descriptive information, see Guide to Federal Records in the National Archives (Washington, DC: National Archives and Records Administration, 1995), Vol. I, Record Group 92.

¹ Please note: "USAF," where it appears, signifies "United States Armed Forces," "USA" and "USAR" signify "United States Army," and "USMC" signifies "United States Marine Corps."

18 MAPS

RG 92:
American Graves Registration Service [AGRS]
World War II Overseas Cemeteries

BOX AND FOLDER TITLE LIST

BOX 1

AFRICA
