Rural Delivery 2
Wilkes Barre, Pennsylvania

Dear Mrs Ferrari

This is to inform you that the remains of your loved one have been permanently interred, as recorded above, side by side with comrades who also gave their lives for their country. Customary military funeral services were conducted over the grave at the time of burial.

After the Department of the Army has completed all final interments, the cemetery will be transferred, as authorized by the Congress, to the care and supervision of the American Battle Monuments Commission. The Commission also will have the responsibility for permanent construction and beautification of the cemetery, including erection of the permanent headstone. The headstone will be inscribed with the name exactly as recorded above, the rank or rating where appropriate, organization, State, and date of death. Any inquiries relative to the type of headstone or the spelling of the name to be inscribed thereon, should be addressed to the American Battle Monuments Commission, Washington 25, D. C. Your letter should include the full name, rank, serial number, grave location, and name of the cemetery.

While interments are in progress, the cemetery will not be open to visitors. You may rest assured that this final interment was conducted with fitting dignity and solemnity and that the grave site will be carefully and conscientiously maintained in perpetuity by the United States Government.

Sincerely yours,

DA

Ferrari, Joseph J
132 249 723

Mrs. Mary Ferrari
214 North 15th Street
Lansing, Michigan

Dear Mrs. Ferrari:

We are desirous that you be furnished information concerning the resting place of the remains of your son, the late Staff Sergeant Joseph J. Ferrari.

The official report of burial has been received and discloses that the remains of your son were originally buried in an isolated grave located at St. Anthony's, Holland, but were later disinterred by our American Graves Registration Personnel, properly identified, and reinterred in lot KMY, Row 10, Grave 234, United States Military Cemetery Langratzen, located ten miles west of Aachen, Germany.

The report further indicates that these remains have now been exhumed and are being held at the cemetery pending disposition instructions from the next of kin, either for return to the United States or for permanent burial in an overseas cemetery.

There are enclosed informational pamphlets regarding the Return of Exhumed Remains Program, including a Disposition Form on which you may indicate your desires in this matter. Upon receipt of the properly completed form, you may be assured that the Department of the Army will attempt to comply with your instructions as indicated thereon.

In order that this office may take immediate action toward the final disposition of the remains of your son, it is urged that you complete the enclosed form, "Request for Disposition of Remains" and mail it to this office, without delay, in the enclosed self-addressed envelope which requires no postage.

May I extend my sincere sympathy in your great loss.

Sincerely yours,

JAMES F. SMITH

REMARKS

(1) Laundry mark "9278" found on underwear of X-1212 can be associated with the last four digits of S/Sgt FERRARI's ASN, 32249728 (In all probability the marking became blurred, due to exposure to the elements and could not be accurately deciphered, i.e. the numbers two (2) and seven (7) are reversed and should have read 9728)

(2) Two different size shoes were recovered with X-1212 right foot, 7½-D, left foot - 8-D Shoe size 7½-D is in agreement with FERRARI's official shoe size

The remains of Unknown X-1212 were recovered from an isolated grave in St Anthonis, Holland, and was identified as a member of the Tank Corps by the type of clothing found. The 7th Armored Div Patch was also found on clothing

Historical records of the 7th Armored Division indicate that the 48th Armored Inf Bn 7th Arm'd Div was in operation in the vicinity of Overloon, Holland between September and October 10 1944

Official records indicate that S/Sgt FERRARI a member of the 48th Arm Inf Bn 7th Arm'd Div was KIA on 5 October 1944 near OVERLOON, Holland (Overloon is approx 1 mi from St Anthonis, Holland)

The tooth chart and physical characteristics recorded for X-1212 compare favorably with the Army records of S/Sgt FERRARI

No other Unknowns are of record showing place of death as St ANTHONIS, Holland

See remarks

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

Harold ...
 Signature of Officer or other person who prepared Tooth chart

Ellsworth I. Mac Intyre
 Verified by G. R. S. Officer

ELLSWORTH I. MAC INTYRE
 CAPTAIN Q.M.C. U.S.A.

MISSING TEETH... All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be "X" 'd out and labeled, thus :

CROWNED TEETH... Block in solid the crown of tooth (label gold, porcelain, Silver or gold and porcelain), thus :

BRIDGE WORK... Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge), thus :

FILLINGS... Draw filling on tooth as accurately as possible (block in and label gold, silver, cement), thus :

CARIES (CAVITIES). Outline location and size of cavity, shade in thus :

DENTURES (PLATES)... Draw diagram of relative size and shape of plate, block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp."

ADDITIONAL SPACE FOR FURTHER REMARKS

Medium size, white teeth.
 Space - L-13-16, 9mm.
 Mesial version L-16.
 L-12 rotates distally- nearly 1/4 turn.
 Shaded areas designate broken teeth.
 Wavy lines designate breaks.
 R13 rotated mesially nearly 1/4 turn.
 L5 rotated mesially-1/8 turn.
 Incisal edges of upper and lower anteriors worn.
 Brown lingual stain.
 R16 impacted but erupted before death.

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspid (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

Dear Mrs Ferrari:

The Army Effects Bureau has received from overseas some personal effects of your son, Staff Sergeant Joseph J Ferrari

These effects are being forwarded to you in one carton

If, by any chance, the property has not reached you at the expiration of thirty days from this date, please notify me and tracer will be instituted

The action of this Bureau in transmitting personal effects does not, of itself, vest title in the recipient. Such property is forwarded for distribution according to the laws of the state of the soldier's legal residence.

I regret the circumstances prompting this letter, and wish to express my sympathy in the loss of your son.

Yours very truly,

D S JOHNSTON
2nd Lt, QMC
Chief, Adm Division
