DEC ME

REPROCESSING DIRECTIVE

NARRATIVE OF REPROCESSING

- 1. Unknown Remains X-5442 USMC Neuville-en-Condroz, Belgium has been reprocessed for verification of estimated age and tooth chart.
- This Remains is in skeletal state. The teeth are intact in the skull and the mandible occludes with the maxilla. The skull cannot be definitely articulated with the Remains because the first five (5) cervical vertebrae are missing.
- The estimated age is based on pubic symphisis, sternal tip of clavicle, sacrum, and closure of skull sutures. The skull suture closures actually indicate an age of approximately forty (40) years of age but this is considered to be excessive considering the moderate amount of wear on the teeth.

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

Size - Average

Culor - Ivory

Posthumously

Missing - R8,9,10,12,13;

- L3,8,9,10,11,12,13.

Spaces - R3-12 18 mm (Ist) Signature of Officer or other person who prepared Tooth chart

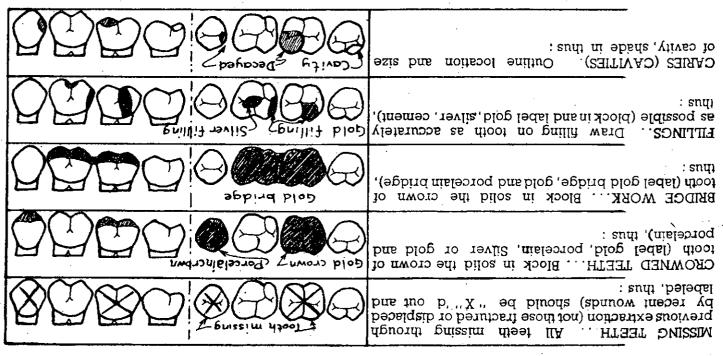

R14 8 mm (Est)

R3 Protrudes facially

R6 and L6 have extral 5th lingual cusps.

DEPARTMENT OF THE ARMY

QMOOD 832.8 Kenses City

21 October 1949

EUBJECT: Status of Certain Unknown Decedents

TO: Commanding Officer, QN Activities Kensas City Records Center (AGO), No ATTENTION: Effects Quartermaster

1. Reference your recent inquiries concerning present status of the following named Unknowns, you are advised that they have been declared unidentifiable:

Unknown X-5403, Neuville-en-Condros, Belgium
Unknown X-5442, " " "
Unknown X-7656, " " "
Unknown X-7626, " " "
Unknown X-7779, " " "
Unknown X-7864; " " "
Unknown X-7987, " " "

- 2. Correspondence from the Bureau regarding these Thknowns is returned herewith.
- 3. The Identification Branch has requested that personal effects involved in cases similar to these be held at the Bureau until further notice.

BY COMMAND OF MAJOR GENERAL FELDMAN:

l Incl:

WILLIAM F. CONLON Major, OMC Field Service Division

DEPARTMENT OF THE ARMY KANSAS CITY QUARTERMASTER DEPOT ARMY EFFECTS BUREAU 601 HARDESTY AVENUE KANSAS CITY 1, MISSOURI

S-23 Nov 49 HOC/AID/hml September 1949

IN REPLY REFER TO QMDKG 882150

23 September 1919 DATE

SUBJECT: Disposal of Personal Effects

TO:

The Quartermaster General

Memorial Division Washington 25, D. C.

1. Personal effects found on remains interred as Unknown X_51112

Plot Unk , Rew Unk , Grave Hnk , USMC Norville on-

Condroz, Belgium have been held at this Bureau as of 7 November 1947.

- 2. Bureau inspection of the effects has been made and the fellowing description furnished for reference:
 - 1 Metal Book Cover
 - 1 Combat Infantryman's Badge
- 3. It is requested that this Bureau be informed whether or not the above listed Unknown decedent has been officially identified.

RRE 293

16 August 1949 (Date)

CERTIFICATE OF UNIDENTIFIABILITY OF REMAINS.

1. The records pertaining to Unknown X - 5442 , Plot _ W

Row 11 , Grave 271, UNC NEUVILLE, Belgium	_,
have been reviewed and it is the opinion of this Office that sufficient	
evidence is not available at the present time to establish the identity	
of the deceased concerned. The remains concerned should be classified as	
unidentifiable at the present time.	
2. Report of Reprocessing of remains was forwarded to your	
Office by Transmittal Letter No. 2343 , dated 1-7-47 .	
3. Remarks: Tooth chart for remains has been compared with available dental records for all unresolved casualties in the same map sheet with negative results. Efforts to associate subject remains with unresolved casualty or casualties by all other means have proven negative.

Th	is denta .be acco	il cha untec	rt is v	ery ir s_sho	nport vn_b	ant a	nd sl numb	ould ers o	be fi n the	lled in	n witi	h grea ginnin	it care	The	re are <i>5</i> lle-line-	2 teeth in-both

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both-upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

Spatture or Other or other person who prepared Tooth diarr

Vertical by G. P. S. Officer

Ernest C. Gaddy ONC USA C.I.P.

DENTURES (PLATES)... Draw diagram of relative size and shape of plate, block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp".

ADDITIONAL SPACE FOR FURTHER REMARKS

Medium size, white teeth.

Posthumously missing - R 9, 10, 12, 13; L 8, 9, 10, 11, 12, 13.

Spaces - R 3-L 2, est.20 mm; L 13-15, est. 8 mm; R 15-R 13, est. 7mm.

R 3 facial version.

Teeth bleached from exposure.

NARBATIVE ON CASE IN HURTGEN FOREST

On 2 April 1947 we proceeded to Hurtgen Forest (District 91B) to investigate and disinter the remains of six (6) American deceased. We received our information from Heinrich Buschmann, who lives at Duren, Germany, Pfennegsweide 13. He is the foreman of a team of woodcutters. He discovered the remains of six (6) Americans while searching for mines in his district of the Hurtgen Forest 91B.

He showed us the remains and we were able to identify them to be Americans by means of their clothing and equipment. The remains consist of dry bones. One of the remains was found in another district. District 92B. It is in the near vicinity of district 91B.

There is no information as to the exact date they were killed as the town of Hurtgen was evacuated of all residents during the fighting. The deceased were presumed to have been killed in December 1944, as the fighting took place at that time. The cause of the death of most of the remains seems to be by shrapnel, mines or small arms weapons.

William W. Fischer

Sgt RA-43097080
