NARRATIVE ON BRANDENBERGY GERMANY CASE

On the 6 May 1947 a disinterring team proceeded to a forest belonging to the community of Brandenberg to disinter the remains of an unburied American soldier. The information was received from Willy Bauer of Schmidt #97 who found the remains while welking through the above mentioned woods in summer 1946.

This disintering team recovered the remains lying on the surface of the ground. The deceased is believed to be killed by small arms's fire, since no signs of Artillery or mines were seen around the place in this woods.

A steel helmet was found approximately 3 yards from the remains bearing the number "3407". Also an M-1 rifle was recovered near the remains bearing the following markings: "BMILY".

Further information pertaining to the deceased is not available.

Floyd Hecksthorne

RA-33923333

Erklaerung

Im Sommer 1946 fand ich wachrend eines Spazierganges durch das Tiefenbachthal die sterblichen Weberreste eines amerikanischen Soldaten. Zu jener Zeit war der Schaedel des Gefallenen noch vorhanden. Sehr wabrscheinlich ist der Schaedel in der Zwischenzeit durch Wildschweine verschleppt worden.

Luckasmuehle bei Hurtgen, 6. Mai 1947 Willy Bauer Schmidt # 97 Post Duren

Statement

In summer 1946 I found the remains of an American soldier while walking through the "Tiefbach-Valley". At that time the scull of the deceased was still there. Probably it was removed by wild-boars in the meantime.

Luckasumhle near Hurtgen, 6 May 1947 Willy Bauer Schmidt # 97 Post Duren

I herewith certify that this is a true translation of the above to the best of my ability.
