SUBJECT: CIL Remains

1st Ind

Department of the Army, OCMG, Washington 25, D. C. 4 March 1949

TO: Commanding General, American Graves Registration Command, European Area, APO 58, c/o Postmaster, New York, New York

1. Reference is made to basic communication.
2. This Office concurs in the assignment of CIL numbers to all unknowns listed thereon with the exception of Unknowns X-450, X-451, X-452, X-454 and X-456, USMC La Cambe.
3. In view of the fact that Reprocessing Reports indicate the presence of teeth in each of these cases, it is requested that allocation by the assignment of CIL numbers be suspended and that these Unknowns be declared unidentifiable instead.
4. Request that Certificates of Unidentifiability be forwarded to this Office at the earliest practicable date.

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.
