CERTIFICATE OF UNIDENTIFIABILITY OF REMAINS

1. The records pertaining to Unknown X-9066, Plot -, Row -, Grave 67, USMC AGRS Liege Mausoleum have been reviewed in accordance with par 159, SR 830-110-5, DA dated 3 March 1949, and it is the opinion of the Board of Review appointed by par 2, SO No 89, this headquarters, dated 16 October 1951, that sufficient evidence is not available to establish the identity of the deceased concerned, and it is recommended these remains be classified as unidentifiable.

2. Report of reprocessing of remains was forwarded to the Office of The Quartermaster General, by Transmittal Letter No. 6348, dated 29 October 1951

CASE HISTORY

Unknown I-9065
I-9066 ✓

AGRS Messelium - Liege

Unknowns I-9065 and I-9066 were recovered near Elsenborn, Belgium while search was being conducted for the remains of S/Sgt William W. ALLEN, 13 1st 989 and Sgt Mitchell T. BOWELL, 15 305 528 both of Co, "G" 26th Inf. Regt., 1st Division, reported killed in action 21 December 1944 near Britgenbach, Belgium.

Reprocessing of subject remains by the Anthropologist definitely revealed that no association can be made with either of the above mentioned casualties.

Comparison has been made with negative results of dental and physical characteristics of subject Unknowns with OCMG Forms 371 for all casualties both resolved and unresolved reported missing in the area of recovery. No association can be found.

In view of the above, it is believed that Unknowns I-9065 and I-9066 should be considered Unidentifiable.

SEARCH AND RECOVERY CASES # 689 A AND # 689 B

PROCESSING DIRECTIVE # 113

PROCESSING NARRATIVE

1. S & R Cases # ⁶⁹³~~689~~ A and B have been redesignated as follows:

S & R # ⁶⁹³~~689~~ A is now Unknown X-9065
AGRS Mausoleum--Liege, Belgium
Grave 66

S & R # ⁶⁹³~~689~~ B is now Unknown X-9066
AGRS Mausoleum--Liege, Belgium
Grave 67

2. Case X-9065 (SR ⁶⁹³~~689~~ A) consists of only the major portions of a shattered skull with maxillary teeth still intact. The mandible is completely missing.

3. Case X-9066 (SR ⁶⁹³~~689~~ B) consists of the major skeletal portions of one deceased. Skull and first nine (9) vertebrae are missing from this remains. A US Service shoe size 11½ B was recovered with this remains. This shoe contained the complete left foot which articulates perfectly with the left tibia of this remains.

4. An attempt has been made to associate either of these two cases with OCMG Forms 371 of S/Sgt William W. ALLEN, 13 184 989 and Sgt Mitchell T. YOWELL, 15 305 528. No association could be made with ALLEN or YOWELL for reasons as follow:

- a. Teeth do not agree in any respect to either casualty.
- b. Shoe size is three and one-half sizes too long and also too narrow for either casualty.
- c. Estimated ages for both cases are over 26 years which is in disagreement with given age of 20 years for ALLEN. Note: No age is shown on Form 371 for YOWELL.

NARRATIVE OF INVESTIGATION

I. AUTHORITY:

In compliance with the instructions contained in Investigation Directive #826, dated 23 July 1951, an investigation was conducted in the vicinity of ELSENBOERN and ROGHERATH (6/K-90) Belgium in an effort to recover the remains of Sgt Mitchell T. YOWELL, 15 305 528 reported as missing in action in this vicinity.

II. FACTS & CIRCUMSTANCES:

A previous investigation made in this area on 1 March 1951, as a result of a news item appearing in the Continental Daily Mail met with negative results. Due to the fact that the area in question was being used by the Belgian Army as an artillery firing range and was closed to all visitors daily between 0800-0900 and 1700 hours, plus the fact that the ground was covered with 20-30 centimeters of snow, no investigation could be made. At the time this investigation was made it was recommended that further investigation be conducted at a later date when weather conditions would permit a search for remains lying above ground and also for signs of isolated graves. It was also recommended that the proper Belgian Military and Police Officials be notified at least fifteen (15) days prior to any subsequent investigation as that the necessary arrangements could be made to suspend artillery fire in this area for the time necessary to complete the investigation.

III. FINDINGS:

Enroute to Elsenborn, a visit was made to the Caserne at Malmedy in an effort to contact Capt. LENHART of the Service du Deminage. Here it was learned that the headquarters of this service has been moved to the citadelle at Liege. Demining teams are still working in this area however and they might possibly be contacted in the areas where they are at work.

A visit was next made to the Gendarmerie at Elsenborn and the necessary arrangements were made with Sgt. KIRCH to visit the area where the remains had been previously reported.

Due to the fact that no previous notice of this investigation had been sent to the local police and military authorities, firing schedules

Narrative of Investigation

5 September 1951,

for the Elsenborn Camp could not be suspended. Consequently it was necessary to enter the area at dawn and leave prior to 0830 hours. This limited the amount of territory which could be covered on foot during this time.

At 0530 hours on 5 September 1951 in the company of the policemen Hubert Dumbruch and Joseph Masset of the Elsenborn brigade an investigation was made in the area previously indicated in investigation conducted 1 March 1951. Skeletal portions of human remains were found and evacuation was made under SR # ~~689~~⁶⁹³ A & B.

The remains designated as SR ~~689~~⁶⁹³ A consisted of a skull without mandible. This remains was reported by the son of the local game warden, Mr. Pierre Josten living at 126 SOURERODT. The skull was found near a stone tower used as an observation point by the Belgian Army to observe artillery fire in this area.

The remains designated as SR # ~~689~~⁶⁹³ B, consisted of an almost complete skeleton, minus skull and mandible. This remains was found above ground under a tree at the edge of a trail about a quarter of a mile below the point where the skull was found. It is believed, because of location, that there is no connection between these remains.

Further search for isolated graves previously reported in this area was negative.

An area indicated by the police as having contained several graves marked by poles bearing German helmets has been cleared by Bulldozers to make a fire lane and all traces of graves have been destroyed.

The isolated grave indicated by the demining team as located between the two dams also could not be found during the time remaining for this investigation as it was necessary to clear the area by 0830 hours.

IV. CONCLUSION:

This investigation succeeded in recovering what is believed to be portions of two (2) remains.

No identification was found and no clothing or equipment recovered which would definitely indicate nationality.

Fire lanes constructed by the Belgian Army in this area have destroyed markers on several isolated graves presumed German.

Narrative of Investigation

5 September 1951

Isolated grave previously reported by de-mining team from Malmedy could not be located due to tall grass and weeds covering area and lack of time.

Son of game-warden Pierre Josten, 126 Sourbrodt states that he has seen other traces of remains above ground and of isolated graves.

He will, upon request accompany investigators in this area.

Firing schedules of the Belgian Artillery camp at Elsenborn make it imperative that they be contacted prior to any further attempt at investigation in this area.

V. RECOMMENDATION:

That a further attempt be made to investigate this area either on a Saturday and Sunday when firing practice is not being held, or after the necessary arrangements have been made with police and military officials at Elsenborn.

Police may be contacted at the following address:

Gendarmerie Nationale
District de Malmedy
Brigade d'Elsenborn
Village, 33, Elsenborn - Tel. 11.

It is also recommended that the son of the game warden, Mr. Pierre Josten, 126 SOURBRODT, be contacted and asked to accompany the investigator. SOURBRODT is a small community located North West of the Elsenborn Camp.

NAME _____ RANK _____ ASN _____

ORGANIZATION _____

MEANS OF IDENTIFICATION _____

(All statements above this line will be completed, upon final processing, by the clerical staff at the unit processing point.)

SECTION A - GENERAL (To be completed by investigators in all cases)

1. Was positive identity acquired for the deceased through the surface investigation?
If so, state the following information :

a. NAME _____ RANK _____ ASN _____

b. ORGANIZATION _____

2. Was partial identification established? . If so, state the facts as to whom you believe the deceased to be :

a. NAME Unk _____ RANK Unk _____ ASN Unk _____

b. ORGANIZATION _____ Unk _____

3. NAMES OF OTHER DECEASED BURIED IN IMMEDIATE VICINITY Unk _____

(Use reverse side for listing of crew members from MACR)

- a. Date of above burials Remains found _____ Common Graves? _____
above ground

15. Where was the place of death? HOHENSPITZ-ELSENDAUER Coords 6/1-70

Give basis _____

16. Where were the remains founds? Dec 15 Coords Dec 15

a. By Whom? Gendarmes of Elsenborn

b. Is sketch attached? No

17. Was a casket used? No Who furnished the casket? _____

Type of casket _____ How marked? _____

18. Who made the burial _____
(Civilian, American Mil. or German Mil).

a. What are the names and addresses? _____

b. Are certificates and statements attached? _____

SECTION B - AIR CORPS DECEASED (To be Completed only if Deceased is believed to be a member of the AAF).

19. Were remains found in the plane wreckage? _____

a. Give location in plane from which the bodies were removed _____

(Tail gunner, pilot, radio, turret, etc., or front, side, of plane)

b. Near wreckage? _____

20. Scene of crash must be investigated. Give complete results of Investigation (if removed, state when an by whom).

a. Type of Plane _____

b. Markings and/or name on plane _____

c. Give numbers on motors, machine guns, instruments, radios or other equipment: _____

21. How did crash occur? _____ Anti-aircraft _____

Enemy Planes? _____ Collision? _____

35. Number of tanks in immediate vicinity at time of disablement _____

36. Does specific time and date of disablement correspond with date of death of above named deceased?

37. Precise time and date of destruction of tank _____
(Night? Day?)

38. Did any of the crew members escape? _____ Prisoners? _____

SECTION D - OTHER BRANCH (To be filled out if B & C are not applicable)

39. Did death occur from any other means? (i. e., truck, jeep, mines, drowning, or small arms fire) — Unknown

It so, give, complete and thorough results of the interrogation.

a. Are all certificates and statements of people who possessed knowledge of the case attached?

40. State the specific clues and evidence that were obtained in securing the name and facts regarding the above listed deceased _____

SECTION E - GENERAL (To be completed by investigation in all cases)

41. Were personal effects recovered by the investigating team No

If not, state reason None present

a. Were identification tags found at the time of death? Unk

Where? _____ By Whom? _____

Present disposition Unk

If deceased is not identified, personal effects will not be forwarded to PE Depot, but will remain with this form until final identification is made, or investigation is abandoned.

b. Were personal effects found at the time of death? Unk

Where? _____ By Whom? _____

Present disposition _____

50. Has any information been given concerning isolated burials in the area outside the immediate vicinity?

Yes

51. Was investigation preceded by advanced publicity? No

(If special investigation, give case number) _____

52. Give Brief Narrative See Narrative attached to ID # 026
