SUBJECT: Remains of GIL [redacted]

1: Mr. [redacted] General
Washington 25, D. C.

1. Forwarded herewith is Identification Laboratory Report, dated 6 August 1955 pertaining to the recovery of remains designated SR # 1080 and SR # 1080.

2. Upon processing it was found that subject remains are additional portions for S/Cgt Clement A. Lescault, 38101182, whose remains have been returned to the United States and 2nd Lieut George C. Pearce, O-2012101, permanently interred in the United States Military Cemetery, Hill Air-Center, Virginia.

3. In view of the above, partial remains SR # 1080 were designated GIL number 5056 and partial remains SR # 1080 were designated GIL number 5057. Attached hereto are records of GIL Remains Forms.

4. Advice is requested if your Office concurs in the above designation.

S. Gibbs

IDENTIFICATION LABORATORY REPORT

1. Search and Recovery Cases # 1029 and # 1030 consist of partial remains recently recovered from the foreigner's section of the community cemetery at Arneburg (M-53/Y-86), Germany. Available records indicate that two (2) U.S. airmen were buried in the community cemetery following the crash of their B-17 A/C # 44-83276 at Arneburg on 8 April 1945. The seven (7) other casualties of this plane fell outside the community of Arneburg and were recovered from the cemetery in nearby Krusemark.

2. The recently recovered remains have been compared with the skeletal charts of the two (2) casualties removed from Arneburg and found to agree with the physical characteristics and portions shown as missing for subject casualties as indicated below:

	<u>AGE</u>	<u>HEIGHT</u>	<u>WEIGHT</u>
SR # 1029	Over 20	70 3/8"	Medium
X-5909 (S/Sgt LESCALE)	20	69 1/2"	148
SR # 1030	Over 20	65 1/2"	Medium light
X-5927 (2/Lt MUNROE)	23	(*)---	---

NOTE (*) The height and weight are not known for this casualty. The original processing report for X-5927 indicates, however, that the right humerus measured 31.2 cm, indicating an estimated height of 65 1/2" which is exactly the same as indicated by the right radius recovered in Case SR # 1030.

3. RECOMMENDATIONS:

The recovery of the above partial remains has clarified certain questions pertaining to burials in the Arneburg cemetery but subject portions do not affect the present identification of the associated remains. It is recommended, therefore, that these portions be designated CIL Remains.
