CERTIFICATE OF UNIDENTIFIABILITY OF REMAINS

1. The records pertaining to Unknown X-70054, Plot , Row Grave 56, USMC Griesheim/Main (Med) Mausoleum have been reviewed in accordance with par 159, SF-830-110-5, DA dated 3 March 1949, and it is the opinion of the Board of Review appointed by par 1, SO 9, Headquarters, USAREUR QM Mortuary Service Detachment, 7770th Army Unit, dated 19 June 1954, that sufficient evidence is not available to establish the identity of the deceased concerned, and it is recommended these remains be classified as unidentifiable.

2. Report of reprocessing of remains was forwarded to the Office of The Quartermaster General by Transmittal Letter No. 6525 dated 30 July 1954.

3. Remarks. See attached case history.

CASE HISTORY

UNKNOWN X-70054
UNKNOWN X-70055

Griesheim/Main (Med)
Mausoleum

The remains now designated Unknown X-70054 and X-70055 were recovered from cultivated field, the property of a Judge Vincenzo Formica, located approximately six (6) kilometers southeast of ARDEA (F-837308), Italy. Remnants of US type equipment were found with the scattered portions of remains.

The remains X-70054 consist of the major portion of a skull; an almost complete mandible; shafts of the right and left humerus; a broken right femur, and a portion of the pelvis. More than half of the teeth are posthumously missing, and there are no fillings in teeth present. Unknown X-70055 consists of only the major portion of a skull.

A review of Mediterranean Zone files on casualties lost and of remains recovered in the general area of Ardea, Italy has failed to provide an association.

In view of the lack of identifying media, it is believed that Unknowns X-70054 and X-70055 should be declared Unidentifiable.

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

INVESTIGATION DIRECTIVE: None
PROCESSING DIRECTIVE : 250
REMAINS PROCESSED : SR # 752 and # 753 (X-70054 and X-70055)

IDENTIFICATION LABORATORY REPORT

1. Search and Recovery Cases # 752 and # 753 represent partial remains of two (2) US Ground Force casualties recovered from a field approximately six (6) kms SE of Ardea (sheet 158-IV/837-309), Italy. Found with these partial remains were portions of US wool OD blanket and US poncho.

2. Unknown "X" numbers have been assigned these cases as follows:

SR 752 is now designated UNKNOWN X-70054
Griesheim/Main (MED ZONE) Mausoleum
Grave 56

SR 753 is now designated UNKNOWN X-70055
Griesheim/Main (MED ZONE) Mausoleum
Grave 57

3. Physical characteristics of these remains are as follows:

		<u>AGE</u>	<u>HEIGHT</u>	<u>WEIGHT</u>	<u>HAIR</u>
—	X-70054 (Remains)	23-27	5'-5 3/8"	130-150	None
	X-70055 (Remains)	Aprx 30	U.T.D.	U.T.D.	None

A mandible with a few teeth was recovered but insufficient skeletal material prevents any definite association with either remains.

4. The shattered condition of these skeletal portions indicates that death resulted from an explosion.

NARRATIVE OF INVESTIGATION

I. AUTHORITY AND MATTERS INVESTIGATED:

On 21 November 1953 while investigating recovery reports of World War II remains at the ABC office in Rome, Italy the undersigned investigators were given a report from the cemetery superintendent at Nettuno. This report concerned the finding of partial remains by Judge Vincenzo Formica, Pretura of Anzio, on his property near Aprilia. He believed the remains were those of an American soldier because of the US Army equipment present.

II. FINDINGS:

We visited Judge Formica at his farm on 24 November 1953. This property is located approximately six (6) kms southeast of Ardea (F 837/308) and consists of several fields under cultivation. Near the edge of one plowed field we were shown some portions of skull, arm, pelvis and leg bones. With these portions were pieces of wool OD blanket and US type poncho. An examination of the remains revealed the presence of two (2) deceased as indicated by major portions of two (2) skulls. These portions had been found scattered over a large area. A search was made in an attempt to find additional portions on the surface and possible evidence of actual graves. We did not find any additional portions but did see scattered bits of the poncho.

III. DISPOSITION:

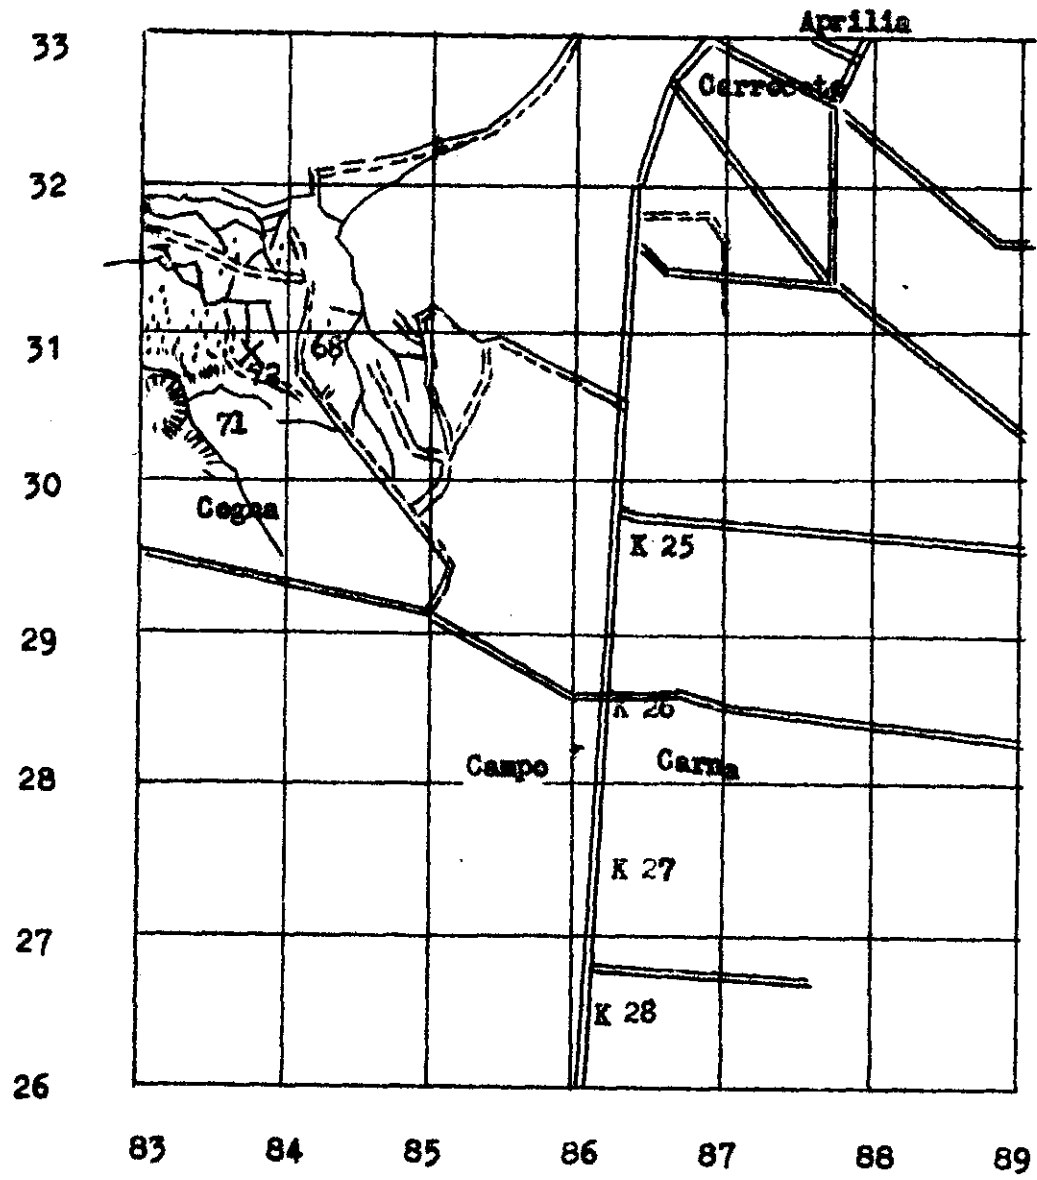

A sketch was made of the recovery site (see exhibit "A"). The remains were designated SR # 752 and SR # 753 and were evacuated to the Graves Registration Central Identification Laboratory in Griesheim/Main, Germany for further processing and research.

IV. RECOMMENDATION:

It is recommended that the area of recovery be compared with available records to determine if subject remains are additional portions of previously recovered remains and/or can be associated with non-recovered casualties of that area.

1. Judge Vincenzo Formica, Pretura of Anzio, reports the discovery of remains on his property located near Aprilia. It would appear, from the judges description, that only parts of remains have been discovered and parts are believed to be American due to the presence of U.S. government

issue equipment. It is requested a disposition on this report be given in order that the judge can be informed.

2. The undersigned has, on previous occasions, notified the Officer in Charge the existence at this cemetery, of a considerable number of German remains. These remains were uncovered during the excavation of pool and other grading projects completed last year. Subject parts completely fill three casket size boxes and it is requested directions, for the disposal of subject remains, be forwarded before the summer season sets in for obvious reasons.
