### CASE HISTORY

UNKNOWN X-9111

Griesheim/Main Mausoleum

The remains designated Unknown X-9111, were recovered after discovery, by workers of a salvage firm, in the hull of an American landing craft at Omaha Beach, Vierville sur Mer, Calvados, France. With remains were found US Army equipment, the barrel and receiver (serial number 1718226) of an M-1 rifle.

No teeth or other conclusive identifying media were recovered. The only clues are; an approximate height and weight, and an age estimate of over 20 years for the decedent.

In view of the lack of identifying media, it is believed that Unknown X-9114 should be declared Unidentifiable.

# HEADQUARTERS 7770TH EUCOM QM MORTUARY SERVICE DETACHMENT APO 757 US ARMY

21 April 1952

# NARRATIVE OF INVESTIGATION

In accordance with the instructions contained in ID # 949, dated 15 April 1952, an investigation was conducted at St. LAURENT Sur Mer. France.

Information received by telephone from American Battle Monuments Commission indicated that workers at Omaha Beach had discovered remains believed to be American.

Workers from a salvage firm engaged in the salvage of debris at Omaha Beach found partial remains in the bottom of an American landing craft. With these remains were found pieces of U.S. Army equipment. No identifying markings or ID tags were found, except for the barrel and receiver of an M-1 rifle. The receiver bears the serial number 1718226. This partial remains has been assigned SR # 706.

It is concluded that these remains are American due to the presence of American equipment and the fact that they were found in the bottom of a sunken American landing craft.

It is recommended that these remains be processed for possible identification.

Militaire Americain

living in Trévières, (Calwados), report the following operations, which we performed on duty and according to orders given us by our superiors.

On 9 April 1952, at 10:30 hrs. a message was received in our office (police) stating that human remains were discovered on a destroyed ship along the beach of Vierville sur Mer, (Calvados), by the enterprise VAN-LOO of Saint Laurent sur Mer.

We left for this place immediately and can make the following statement:

# STATEMENT:

After we arrived we found that the human remains which were almost calcified; an American helmet; a field-bottle; a box of matches; a case; the mechanism of the trigger of a pistol; a destroyed machine gum on the calcified parts, were taken away by the Director of the American Cemetery of St. Laurent sur Mer after the latter had been informed of the discovery. These human remains and the objects were discovered in a destroyed gun boat at the beach of Vierville sur Mer.

### LOCATION OF PLACE

The destroyed ship on which the human remains and the objects were found is located along the steep coast of Vierville sur Mer, facing the open sea, and north-west of this location. The destroyed gun boat is located at the beach, 500 meters, approximately, and north- of the route of Vierville sur Mer, leading to the beach. During the investigation it was learned:

GILBERT, Albert, 30 years old, Technical Director of the enterprise VAN-LOO, residing at Vierville sur Mer, (Calvados), who declared:

"Yesterday, 8 April 1952, during the afternoon, when carrying away old iron on a gun boat which had stranded at the coast, facing the open sea, on the territory of the community of Vierville sur Mer, we have discovered humain remains, a piece of the tibia, pieces of the vertebrae, and

## TRANSLATION cont\*d

other bones which I could not identify. Together with the remains we found a box of matches, a little case, an American helmet, a destroyed machine gun etc. These objects and the remains have been gathered in order to be turned over to the competent authorities."

Statement made, certified and signed.

BRASHER, W. Robert, 44 years old, Director of the American Cemetery of Colleville and Saint-Laurent-sur-Mer, (Calvados), who declared:

"I confirm having taken possession of the remains of a U.S. Military person, which were recovered yesterday, 8 of this month, by the enterprise VAN-LOO, in a destroyed ship at the beach of Vierville sur Mer.

I also confirm that I have taken possession of the destroyed machine gun, the mechanism of the trigger of a pistol and other objects which were discovered with the bones.

The American Graves Commission will be informed about this discovery thru my office."

Statement made, certified and signed.

Accompanied by the laborers of the enterprise VAN-IOO and the Director of the American Cemetery we proceeded to the ship wreckage and its vicinity for further investigation.

During a very thorough search we could not find anything else which would have given a clue as to identify the soldier whose remains (partial) had been discovered.

Four Investigations: destined:

First: Officer in Charge at Bayeux
Second: M. le Prefet of Calvados, in Caen, (V. H.)
Third: The General of Corps d'Armee, Chief of the French Liaison, with S.H.A.P.E., in Paris
Fourth: In the Archives.

Made and closed in Trevières, on 10 April 1952.

INVESTIGATION DIRECTIVE 949 SR # 706

PROCESSING DIRECTIVE

160

25 April 1952

## PROCESSING NARRATIVE

- 1. Search and Recovery Case # 706 pertains to remains (partial) recovered from the bottom section of a U. S. landing craft during recent salvage operations at Omaha Beach near St. LAURENT sur MER, France. With this case were found several items of U.S. equipment including the barrel and trigger housing of an M-1 rifle bearing the number 1718226.
  - 2. This case is now designated as follows:

UNKNOWN X-9114 Griesheim/Main Mausoleum Grave 115

3. Laboratory processing revealed the following features of identification:

HEIGHT (\*) 5' - 2 1/8" 110-130 Lbs X-9114 (Remains) Mone found

> There were no teeth recovered. Remains are severely burned and shattered except for the right humerus and radius. NOTE (\*) Estimated height is based on measurements of the right humerus and radius alone which normally indicates an estimate less than actual height. Considering this fact it is very possible to assume that the actual height of this deceased was from  $5! - h^*$  to  $5! - 5^*$ . This case represents just one (1) deceased.

4. CAUSE OF DEATH: The shattered and burned condition of the remains in this case indicates that death was caused by explosion and fire resulting from the landing craft hitting a mine or receiving a hit from shell fire.
