Hq. PBS 8-44 - 200,000

INSTRUCTIONS FOR BURIAL

1 **PREPARATION OF BODY** Have body examined by member of Medical Department whenever possible (to attach E.M.T. Form 52b) Remove all personal property, remove one identification tag, leave other on body in protected position (in case of enemy dead, leave 1/2 tag on body, forward 1/2 with personal effects.) If no tag present, make notation of identifying data on form, protect in sealed bottle, canteen, spent shell, or best available container and bury with remains. If unidentified, take fingerprints of both hands; if this not possible, fill out tooth chart and note height, weight, color of eyes and hair, tattoo marks, birthmarks, etc., and other data as serial no. of weapon, laundry marks, where body found, etc. Wrap body in shelter half, mattress cover, or blanket when available.

2 **BURIAL** : Dig grave to a depth of five feet (hasty battlefield burials, to sufficient depth to prevent elements from exposing the body) *Place only one body in a grave.* Dig graves side by side, row behind row.

3 **MARKING OF GRAVE** Fasten identification tag to temporary name peg and place at head of grave. For enemy dead, write data on peg. When pegs are not available, copy data on a piece of paper, place in bottle, spent shell, or other receptacle, seal tightly and place so as to mark and identify grave. If identification tag cannot be fastened to peg or placed in container, do not leave at grave but forward with report of burial. If only one tag is found on body, it should be buried with body. The information thereon should be written on marker or placed in container at head of grave. Do not use weapons or helmets to mark graves.

4 **LOCATION OF GRAVE** : Report burials in established cemeteries by plot, row, and grave number (or show on cemetery map). For all other burials prepare sketch in space provided below, and give location by means of map references, or by reference to prominent permanent landmarks. Information must be specific, accurate, complete. Stand at foot of grave facing head to determine bodies buried to the left and right.

5. **PERSONAL EFFECTS** : List only personal effects taken from body on the Burial Report form. Place these with information as to identity of owner, organization, emergency addressee, in personal effects bag, or wrap in handkerchief, towel, or other available material and turn over to Grave Registration Service Personnel with report of burial. Government property is not to be included in personal effects but is to be turned in to Salvage Collecting Point.
