SUBJECT: Unidentifiable Remains

TO : The Quartermaster  
Washington 25, D. C.  
Attn: Memorial Division

The records pertaining to Unknown X- 580, Plot \_\_\_\_\_,  
Row \_\_\_\_\_, Grave 8472, USMC USAF CEM Leyte #1, have  
been reviewed and it is the opinion of this office that insuf-  
ficient evidence is available to establish the identity of this  
deceased, and that these remains should be classified as un-  
identifiable.

FOR THE COMMANDING OFFICER:

G. MCNEELAR

  - b.
  - c.
  - d.
  - e.
12. DATE AND TIME RETURNED: 1 May 1947
13. REMARKS: (SEE REVERSE SIDE)

Party departed from Dipi at 1000 hours, 28 April 1947, by Motor, arriving at Sabanale at 1100; travel by motor from this point was impossible, so the party continued North on foot. All Civilians on the

route of travel were questioned regarding any possible American remains in the area.

On arriving at Lomonon, a search was made for the graves of CHAMLEY and OLSON. Nothing was found and none of the Civilians in the Vicinity had knowledge of any possible burial near the barrio. On further questioning of local civilians, leads were found on 3 possible remains about 5 Kilometers East of Lomonon. Each was checked, but proved to be unburied Japanese.

The night of 28 April was spent in the local schoolroom.

On 29 April, the party was divided into 2 crews. One crew of 2 EM and one civilian guide departed to search the area in the vicinity of Mt. Agobob. The second crew of 1 EM, 2 Civilians (guides) and one Officer continued North up the Coast. All Civilians on the route were questioned, but no further leads were found until, arriving at Villaba, one trip about 4 kilometers east of Villaba, but the remains proved to be Japanese. The night of 29 April, was spent in Villaba.

On 30 April, guided by Juan Comonol, a Barrio Policeman, 3 recoveries were made:

GRID COORD:  $11^{\circ} 12' N.$ ,  $124^{\circ} 24' E$  - unburied but complete skeleton, no Identification except buttons from fatigue clothing.

GRID COORD:  $11^{\circ} 13' 15'' N.$ ,  $124^{\circ} 24' 30'' E$  - unburied, but complete skeleton, no Identification except buttons, minor scrap of American equipment. About a year previous, some Civilians in the area had picked up a crucifix from the body. The crucifix was recovered, but had no Identification markings.

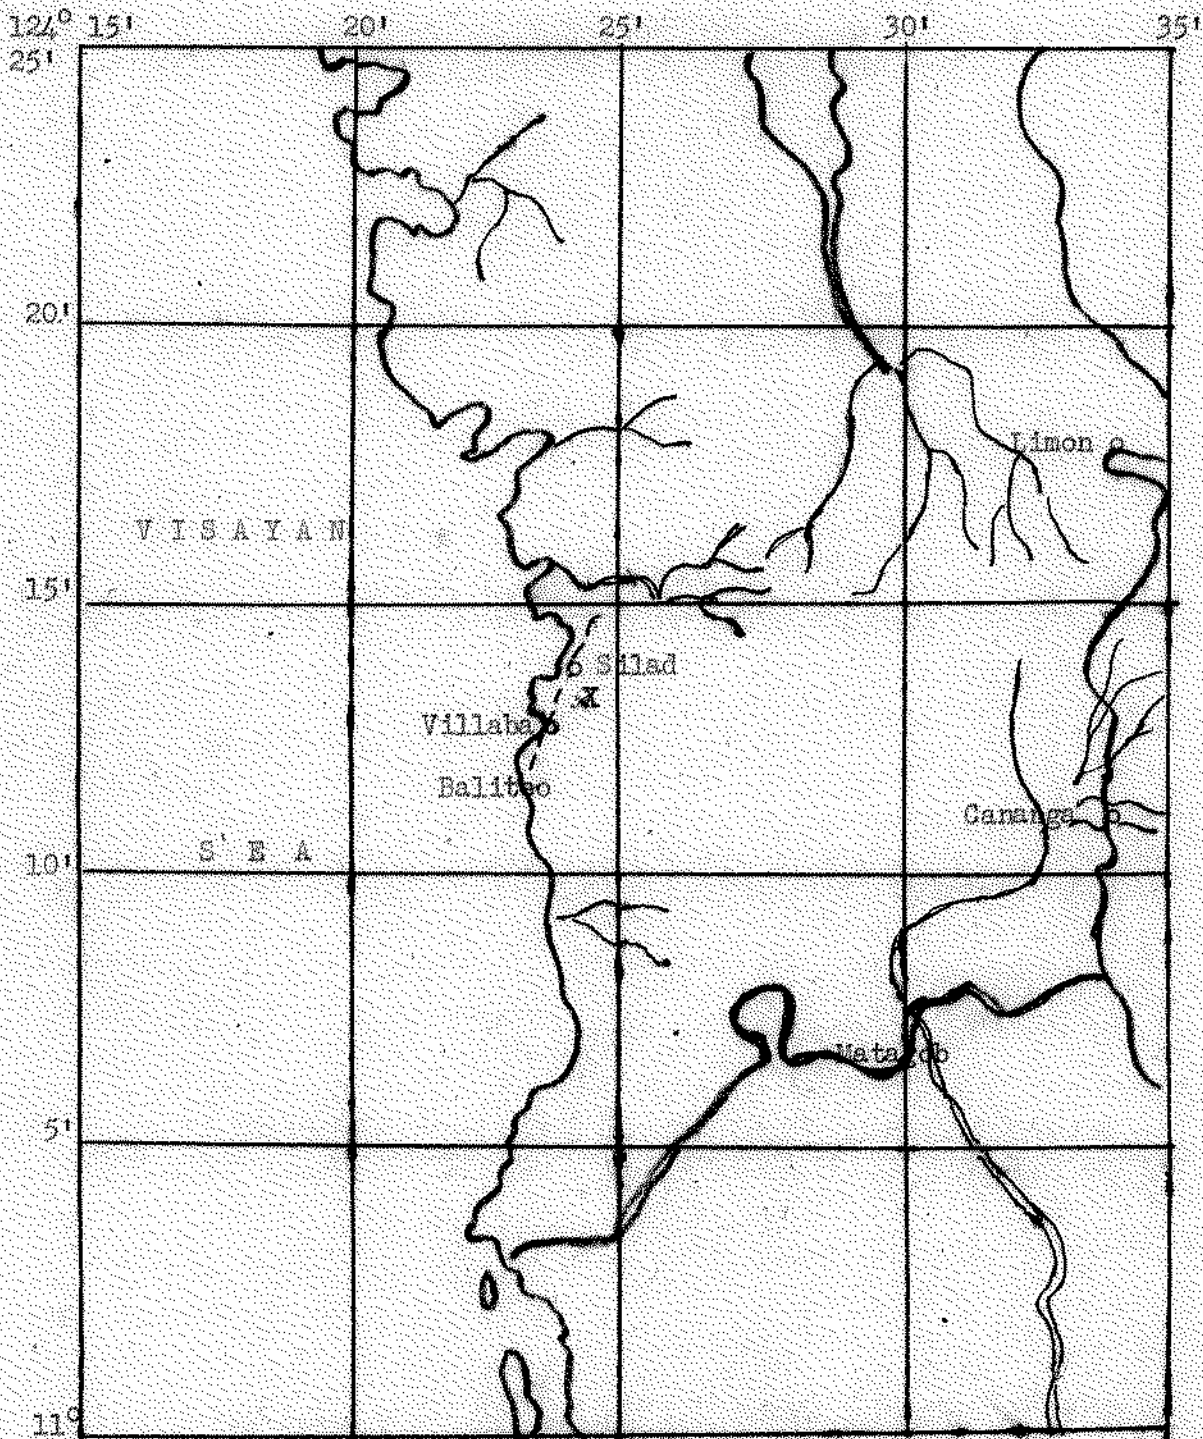

GRID COORD:  $11^{\circ} 13' 15'' N.$ ,  $124^{\circ} 24' E$  - unburied, but complete skeleton and one dog tag bearing the following information:  
NATHANIEL E. SMITH 20212581 T41 2 A  
MRS. B. W. SMITH  
306 Harmon St.  
Elmira, N. Y.

The recovered remains were returned with one EM and one civilian, who spent the night of 30 April in Villaba, returned to Palompon by boat and truck to DIPI.

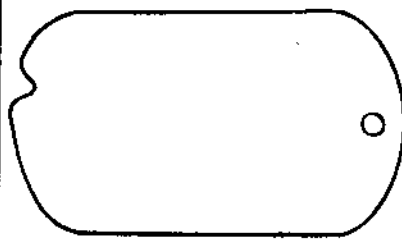

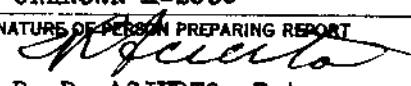

The balance of the search team, one officer and one guide, continued the search, traveling East to Taob and South thru Hibuluangan, Bugabuga, Sulpa, Agobob and back to Dipi. Civilians were questioned on the entire route, but no further information could be found.

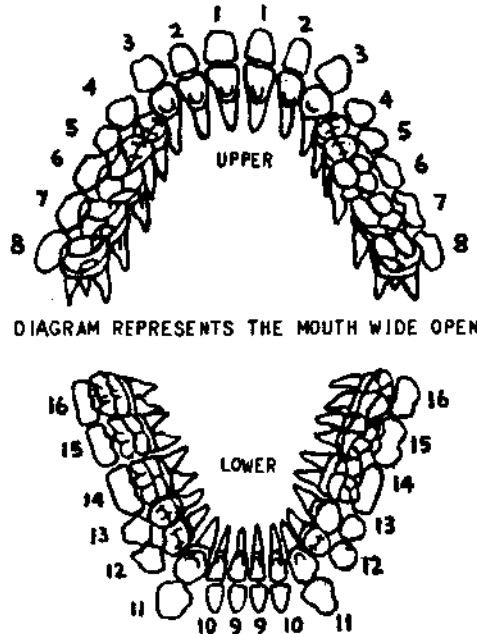

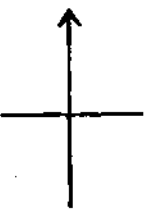

It is the opinion of the undersigned that further search of this area would be futile.

REPORT OF DISINTERMENT FOR IDENTIFICATION

21 October 1947

1. Remains of (Name)		Serial Number		
UNKNOWN X-580		-		
Grade	Organization			
-	-			
Name, Number and Location of Cemetery		Plot	Row	Grave No.
USAF Cemetery Leyte Isl, P.I.				8472

2. Date of Disinterment

21 October 1947

3. Report as to Nature of Original Burial and Condition of Body Upon Disinterment.

Original made in type "C" casket burial. Skeletal remains incomplete. Substitute tags on remains and on marker coincide with R.O.I. on file. No burial bottle found with remains. Maxilla fragmented. Missing: fibula, scapula, one hip bone and ulna. No identification clues found with remains.

4. What Identification Found at Time of Disinterment: On Marker

Substitute tag

On Remains

Substitute tag

What Identification Used Upon Reinterment: On Marker

Held in Field Morgue

On Remains

Substitute tag

5. Signature of Officer Supervising Disinterment and Reinterment.

*Paul R. Nichols*  
PAUL R. NICHOLS, Embalmer

INSTRUCTIONS FOR PROPER MARKINGS ON DENTAL CHART

1. Give all information and description on dental chart as nearly correct as the condition of the body will allow. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: lost teeth, crowned teeth, bridgework, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

Missing Teeth

Crowned Teeth

Bridgework

Fillings

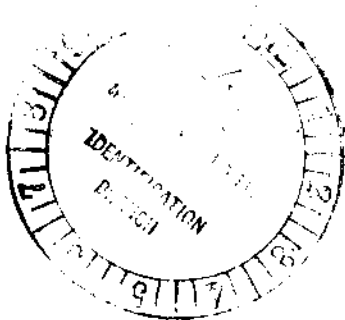

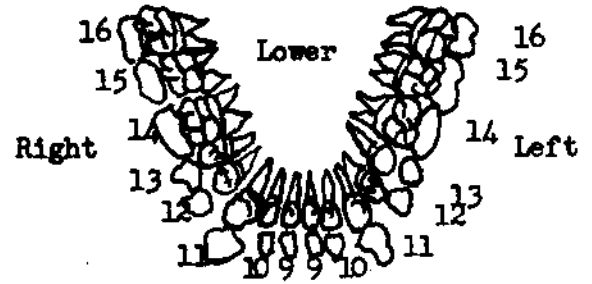

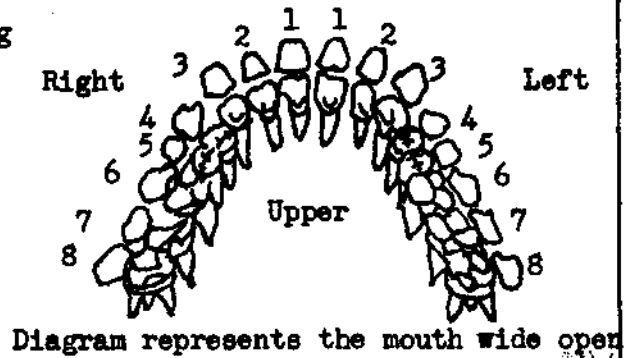

Caries (Cavities)

Dentures (Plates) Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp".
