QUEST 208
USC Form 1044

17 August 1949

SUBJECT: Identification of World War II Deceased

**TO: Commanding General
Philippine Command
APO 707, c/o Postmaster
San Francisco, California
ATTN: AGSC, PHILIPPINE AREA**

1. Reference is made to the following remains now stored at AGSC
Mausoleum, Manila, P.I.:

Unknown X-4535
Unknown X-423
Unknown X-2530 (formerly X-600, USAF Cemetery Leyte (I), P.I.)
Unknown X-3428 (formerly X-188, USAF Cemetery Leyte (I), P.I.)
Unknown X-3728 (formerly X- 78, USAF Cemetery Leyte (I), P.I.)
Unknown X-3684 (formerly X- 79, USAF Cemetery Leyte (I), P.I.)

2. Subject cases have been reviewed and this Office approves the
classification of the above listed Unknowns as unidentifiable.

3. USC Form 1044 for Unknown X-4194 was transmitted this Office for
review. Records indicate that subject unknown was segregated into two
remains designated Unknowns X-4194-A and X-4194-B. Request clarification.

Instructions for the Proper Completion of G.R.S. Form No. 4

Enter information, as noted below, on reverse side of sheet in the corresponding numbered space.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.

2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.

3. Give date and accurate information, as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.

4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.

5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".

(b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No. 6. If additional remarks are necessary use additional sheet of paper and attach hereto.

6. Give all information as to body description and dental chart as nearly correct as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

MISSING TEETH—All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus:

CROWNED TEETH—Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain) thus:

BRIDGE WORK—Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge), thus:

FILLINGS—Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus:

CARIES (CAVITIES)—Outline location and size of cavities, shade in thus:

DENTURES (PLATES) Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp".

7. Show name of person supervising the disinterment and the name and title of the person approving same.

8. Show name of person supervising the reburial and the name and title of the person approving same.

Section 3 UNIDENTIFIED REMAINS.

INSTRUCTIONS:

(a) Great care will be taken to record the most minute clues for the future identity of unidentified remains. Fill in anatomical characteristics below, and any other clues under "Other," such as shoe size, social security number; position of body found in airplanes, vehicles, and tanks; and serial numbers of airplanes, vehicles, and tanks.

(b) A fingerprint, or prints, are the most valuable of all clues. Imprint all fingers and thumbs in the chart at left, or as many as possible. If no fingerprint or prints can be secured, the condition of each and every tooth will be indicated on the tooth chart in accordance with diagram below. Tooth chart will not be accomplished if one or more fingerprints are secured.
