Reference: UNKNOWN X-540 Leyte #1

The above remains were examined and processed this date to ^{attempt to} verify an association made by CMSG. CMC Forms 1044 were accomplished.

An examination of the above remains reveals the following:

These remains do not constitute a bona fide segregation for the following reasons: (1) Femurs are not paired; (2) The tibias are paired but the left tibia does not articulate with the left femur, the only femur which has the distal extremity present.

Stature and age have not been recorded, because (1) stature is not recorded for unsegregated remains and (2) there is no agreement between the aging criteria for different skeletal parts.

On the basis of the above findings, it is recommended that UNKNOWN X-540 Leyte #1 remain designated as such.

February 1, 1946

Mr. Gordon Parker
Randlett, Utah.

Dear Mr. Parker:

It is with sincere regret that circumstances dictate that I write this letter to you. The War Department has already notified you that your son is missing. He has been missing since January 1, 1945.

On that date another and your son went hunting doves near the Battery position. Evidently they did not pay much attention to how far they walked being intent on finding the game birds. When they got about a mile from the position area they neared a village and saw three men walking toward them dressed in shabby clothes. As they drew nearer they noticed they were Japanese. Both soldiers dropped to the ground and the Japanese opened fire. There was a deep river bed directly to their rear and both men worked their way back. Pvt LaBaff saw your son jump down the bank about fifty feet from where they jumped. He waited for your son to join him. After about ten minutes LaBaff called "Parker, answer me." He repeated this five or six times in the next fifteen minutes, during which time the activity of the enemy was becoming more intense. Pvt LaBaff, using the river bed for cover, made his way to the Battery position and reported the fact that Pvt Parker was still out there. Lt Syrett organized a fifteen man patrol and set off behind Pvt LaBaff. When they reached the ditch, they too spotted the enemy and opened fire. The Japanese countered with machine guns and mortars. Lt Syrett estimated they had walked into over one hundred Japanese. The get-away man returned to the Battery for more men. I took fifteen more plus two machine guns and a tractor.

When this relief group reached the first patrol it was already getting dark. The area where your son was last seen by Pvt LaBaff was thoroughly searched but no trace of him could be found.

The next morning an Infantry reinforced company, several tanks and an Artillery forward observer returned to the area, and drove the Japanese off reflecting heavy casualties. Lt Syrett and four men from the Battery searched the entire area for two or three hours without any luck. For several days we kept the hope alive that your son might have joined another outfit and been unable to notify the Battery or return to it.

Private Parker had been with the Battery only a short time, but in that time he made a lot of sincere friends. The first patrol that went out with Lt Syrett was made up entirely of fifth section men, and all were volunteers. Your son was a hard worker and an excellent soldier. His loss is a great one, one neither the officers nor the enlisted men will soon forget.

Sincerely,

WILLIAM D. WEBER

Sol was approximately 1800 yds from Btry position accompanied by another member of the battery and were fired on by the enemy. Both soldiers were pinned down by enemy machine gun fire. Both soldiers made a break for the battery area and had to cross a gully to reach it. The one soldier arrived at the battery area and reported the above incidents to the battery commander and also stated that the last he saw of Pvt Parker was in trying to cross the gully. A patrol was immediately sent out to try and locate Pvt Parker and also locate enemy and they in turn were pinned down by enemy fire. A thorough search of the area was made that evening and all of the following morning but Pvt Parker was not able to be located."

The consignee stated his own belongings were in the barracks bag, and he has no complaint; however, the three packages mentioned have been returned to our Agent at Morristown, and are not wanted by Mr. Carmon, and do not belong to him.

Please investigate, seeing how these happened to get into his barracks bag, and advise quickly as to disposition that shall be made thereof.

Copies of this letter go to the Agents at Smyrna, Del. and Orchard, Texas, as well as Kansas City, Mo., who may have inquiry concerning the packages bearing those addresses.
