(Formerly X-474, 478, 513, 514, 515

476, 478, 477, USAF Cem, Manila #2)

29 February 1949

SUBJECT: Identification of Deceased Personnel

TO : Commanding General
Philippine Command
APO 707, c/o PM, San Francisco, Calif
ATTN AGRS PHILCOM ZONE

1. Reference is made to Board Proceedings, your Headquarters, recommending the following identification:

Unknown X-4232 as Daniels, Elmer, Pvt. 15 017 359
Unknown X-4236 as Accomando, John J., S/Sgt. 6 981 597
Unknown X-4237 as Pinton, Norman W. Pfc. 6 578 716
Unknown X-4238 as Surber, Donald H., Pvt. 19 018 756
Unknown X-4239 as Coggeshall, Charles A., S_{gt.}, 19 018 755

and the Group Identification of Unknowns X-4233, X-4234-Z, X-4234-B, and X-4235 as the recoverable remains of:

Anderson, John A.	T/Sgt.	7 031 364
Gourlay, Carlton R.	Pvt.	32 074 027
Jordan, Major B.	Cpl.	6 923 343
McCoy, Douglas W.	S/ Sgt.	6 971 422
Olson, Everell D.	S/Sgt.	6 913 132

These Board Proceedings are being returned herewith.

2. Since a discrepancy exists between the grave numbers shown for these individuals on the Cabanatuan Death Report and the actual grave from which several of the remains being recommended for identification were recovered, a closer comparison of dental and physical characteristics will be necessary before individual identifications can be confirmed. Forms 371 for each of the individuals concerned are inclosed.

Handwritten: 293 unkn P.I. X-4234-A-B (Manila #2)

Ltr 28 February 1949

SUBJECT: Identification of Deceased Personnel

3. It is requested that the remains of Unknown X-4232, recommended for identification as Private Elmer Daniels, be reprocessed to determine if teeth I-2 and I-6 were missing before or after death.

4. Additional dental information has been received for Staff Sergeant John J. Accomando, which indicates that he may be associated with Unknown X-4233. A closer dental and height comparison exists between this soldier and the remains of Unknown X-4233, than for the remains of X-4236, recommended for individual identification as this soldier.

5. Dental information for Pfcg Norman W. Finton does not compare favorable with the dental data for the Remains of Unknown X-4237, recommended for identification as this soldier.

6. The comparison of dental data for Unknown X-4238 and Private Donald H. Surber, recommended for individual identification, is not conclusive. This soldier was reported to be buried in Grave 828, and remains were recovered from Grave 825. (See paragraph 2, above). The same situation exists in the case of remains of Unknown X-4239 and Sergeant Charles A. Coggeshall for whom no conclusive dental comparisons are noted.

7. It is requested that remains recovered from Graves 825 and 829, Cabanatuan POW Cemetery, which were recommended for identification be reprocessed in the Central Identification Laboratory, and that finding be reported to the Field Board of Review for their action.

8. It is further requested that this Office be advised at the earliest practicable date.

Section 3. UNIDENTIFIED REMAINS.

INSTRUCTIONS:

(a) Great care will be taken to record the most minute clues for the future identity of unidentified remains. Fill in anatomical characteristics below, and any other clues under "Other," such as shoe size, social security number; position of body found in airplanes, vehicles, and tanks; and serial numbers of airplanes, vehicles, and tanks.

(b) A fingerprint, or prints, are the most valuable of all clues. Imprint all fingers and thumbs in the chart at left, or as many as possible. If no fingerprint or prints can be secured, the condition of each and every tooth will be indicated on the tooth chart in accordance with diagram below. Tooth chart will not be accomplished if one or more fingerprints are secured.
