1. QMC Form 1045, Identification Dental Chart, submitted for Unknown X-889A, Hanger 812, Bay B, Crypt 512, AGRS Mausoleum, Manila, P. I. has been compared with the navy dental record of LtCol. Samuel W. FREENY, 0311, USMC. Comparison of the mandible is favorable; however, there is a discrepancy in the maxilla. QMC Form 1045 for Unknown X-889A states under remarks "Upper denture, full, with rubber base", while the navy dental record of LtCol. Freeny shows a partial upper denture with right 3, 4 and 6 and left 3 and 4 present. This examination was made at Corregidor, P. I. on 7 January 1942. Request Unknown X-889A be reprocessed for identification with the inclosed navy dental record of LtCol. Freeny.
2. QMC Form 1045 submitted for Unknown X-890, Hanger 812, Bay B, Crypt 509, AGRS Mausoleum, Manila, P. I., has been compared with the navy dental record of Ensign John W. ELLIOTT, 109180, USNR. Per basic letter from DOTA, OQMG, Wash., 25, D.C., file QMGMU 293, UNKs X-422 thru X-427 (Manila #2, P.I.), dated 3 Dec 47, Subj: "Burial Information".

Remains of six (6) unknowns previously disinterred from San Fernando Municipal Cemetery, Luzon (Grave, Plot or Row not designated) and reinterred in Manila Cemetery #2, in Plot 2, Row 14, Grave # 1797, 1801, 1802, 1803, 1804, and 1805 were processed by the CIP Laboratory. In processing these remains on 22 Oct 47, it was determined that there were portions of ten (10) remains. Segregation was made in Manila Mausoleum, UNK Nos. X-888-A, X-888-B, X-888-C, (X-889-A) X-889-B, X-890, X-891, X-892 X-893-A and X-893-B were assigned.

Upon request to reprocess these remains in conjunction with known remains of Eugene L Specht, Deenah Rue McCurry, Wendell E Swanson, Alexander E Keegan, UNK X-3575, (Formerly Lloyd E Wagn), Lt Col Dwight D Edison, Cleris S C Raymond and William F Glaab, it was determined that these were minor bone discrepancies in all cases and that cases X-888-C and X-893-B were portions of these known and unknown remains. After careful analysis of bone structure, therefore X-888-C and X-893-B were segregated into these remains without changing any major bone structure.

Per letter from Headquarters, 3 Mar 48 instructed to reprocess Manila Mausoleum, UNK X-1335 and X-1336 in conjunction with all the knowns and unknowns of this group. Upon reprocessing, it was determined that the small portion of skeletal remains of UNK X-1335 could be consolidated with UNK X-888-B and X-1336 and consolidation was performed.

One extra I.D. tag of "MARTIN L JOHNSON, 6273044 BX" was found with the remains of "EDISON, DWIGHT D". It is suggested that Martin L Johnson could possibly be one of the unknowns in this group.

CONCLUSION: Cancellation of Unknown cases X-888-C, X-893-B and X-1335. Corrected forms 1042, 1044, 1044-A and 1044-B on all the formerly processed unknowns. Instead of a total of fifteen (15) remains as stated in letter DOTA, OQMG, Washington 25, D.C., dated 3 Dec 47, file QMGMU 293, or seventeen (17) remains as stated in attached copy of Report of Investigation Division, Legal Section, GHQ, SCAP dtd 16 Sept 46; there are eighteen (18) remains; eight (8) knowns and ten (10) unknowns.

This statement shall be a cross reference to each known and unknown in this group. Any identification discrepancies on individuals are noted on their particular case papers.

REPORT: re - Recovery of Two Bodies, presumably American, in the grave in the Municipal Cemetery, San Fernando, Pampanga, Luzon, from which the bodies of Wendell F. SWANSON and fourteen others were recovered in December 1945.

1. Junsaburo TOSHINO, a former Japanese officer now confined in the Sugamo Prison, Tokyo, Japan, has admitted witnessing the execution of fifteen American Prisoners of War in the San Fernando Municipal Cemetery in December 1944. He has drawn a map to indicate the position of the spot where the execution took place in the cemetery and where the Prisoners of War were buried.
2. Federico SALES, caretaker of the Municipal Cemetery, San Fernando, Pampanga, has pointed out the grave described by TOSHINO. SALES states that four Americans were buried in the grave in December 1944 but that some fifteen bodies were recovered from this grave in December 1945.
3. On the basis of the details related in the above paragraphs, it seems possible that the above-mentioned grave might contain a total of some nineteen bodies.
4. According to the Report of Interment of Wendell F. SWANSON, only fifteen bodies were recovered from this grave.
5. Therefore, on 13 September 1946, this grave was reopened by a gravedigging detail under the supervision of a Master Sergeant from the Graves Recovery Team Field Headquarters at Bacolor, Pampanga, and this officer.
6. The grave yielded one complete skeletal remains and one skeletal remains less the skull. These remains are not those of a Filipino and are therefore believed to be those of an American. No means of positive identification of the bodies was located.
7. It is most possible that there are not more remains to be recovered from the above-mentioned grave.
